## ABSTRACT

This final report describes a project to revise a 60-hour postsecondary course for activity coordinators in long-term care facilities in Iowa, to train instructors to teach the curriculum, and to evaluate that training. Introductory material includes the following: a summary sheet on how course competencies were identified, how the materials were revised, for whom the materials are intended, evaluation findings concerning their use, the impact of the materials, and recommendations for the future; and a sample teacher training program for activity coordinators evaluation form. Next come the objectives, agenda, and evaluation of an instructor training workshop. The rest of the document consists of the course training materials. A course summary sheet includes a course description, description of competency development, list of instructional methods used in the course, and evaluation description. The competencies taught in the course are listed. A matrix lists the objectives, content, and instructional methods and/or activities used to teach each of four units of instruction: (1) an orientation to the course and the duties of an activity coordinator; (2) management skills; (3) the characteristics of residents in long-term care facilities; and (4) a program of activities that could be carried out by a coordinator. The materials conclude with sheets that tell the instructor the objectives for every instructional activity prescribed on the matrix and directions for carrying them out. (CML)

Activity Title: Activity Coordinator Curriculum Project

B. Final Report

1. Objectives

1. Organize a state advisory committee composed of incumbent workers, employers, state association representatives and state agencies to determine competencies for activity coordinator.
2. Work with the state advisory committee to clarify and validate the competencies and use these competencies to review/revise the current activity coordinator curriculum and handbook.
3. When completed, submit the curriculum to the Department of Inspections and Appeals for approval.
4. Upon approval conduct a state workshop to disseminate materials and prepare teachers for implementation of curricula.

ED 352505  
CE 062660

2. Procedures for Implementation

1. Advisory committee was organized and appropriate organizations, etc. included. (Membership list attached)
2. Competencies were reviewed and revised. The former curricula was used and employers updated list. (See curriculum)
3. Competencies were used to revise curricula and make recommendations regarding length.
4. Committee met and reviewed/revised/approved curricula.
5. Workshop conducted on June 20 to disseminate materials and train teachers.

3. Audience Served

The curriculum has been disseminated to the area community colleges to be used in preparing activity coordinators for long term care facilities. There were 15 teachers who attended the teacher workshop. All were females. The majority of the activity coordinator students will be female; however the residents in long term care who will directly benefit from the skills acquired by students will be approximately 40% male.

4. Special Activities

1. Revision of the Activity Coordinator Course. (Copies Attached).
2. Workshop to disseminate materials and train teachers to use the curriculum. (Program including workshop objectives attached)

5. Activities for Educational Equity

All programs/courses offered at the community college are nonsexist, multicultural. Special emphasis was made in the curricula to include

U.S. DEPARTMENT OF EDUCATION  
Office of Educational Research and Improvement  
EDUCATIONAL RESOURCES INFORMATION  
CENTER (ERIC)  
 This document has been reproduced as

Activity Title: Activity Coordinator Curriculum Project

activity needs of male/female and traditions of other cultural areas. The needs of all persons regardless of sex, race or culture are integrated throughout the curriculum so activity coordinators will utilize these principles in planning activity programs.

#### 6. Evaluation of the Project

Throughout the finalization of competencies and the revision of the curricula the advisory committee provided ongoing evaluation. Upon completion of project, prior to teacher workshop, the committee reviewed the final product, assessed it and made final recommendations. The teachers at the workshop evaluated the curricula and the workshop.

#### 7. Evaluation Findings

The participants in the teacher workshop ranked the attainment of workshop objectives 4+ on a 5. scale. Although they felt the workshop should have been longer they felt it was very worthwhile and should be required of all activity coordinator instructors. (Summary Attached).

#### 8. Benefits/Impact

The activity coordinator curricula is a short term preparatory program (60 hrs) required of all persons who work as activity coordinators in long term care facilities. The revision of the curricula is related to:

- 1) The well being of residents in nursing facilities is improved with quality training of the personnel who provide the services. The activity coordinator is an important health care provider in the facilities.
- 2) The competencies are much better defined as a result of this project. The clarity assists students and employers to better understand competencies upon entry in the field.
- 3) Major changes have been made in the training and delivery of care in long term care facilities as a result of OBRA 1987 Nursing Home regulations. The revised curricula reflect these changes and assist nursing facilities in Iowa to stay in compliance with new requirements.
- 4) The persons who teach the activity coordinator course now have better materials to assist in the training, they have more insight into selection of appropriate strategies for teaching the course and more knowledge regarding writing of test items to measure student progress.

Activity Number: FCS-91-03-07

Activity Title: Activity Coordinator Curriculum Project

9. Future Recommendations

Continuous evaluation of course to determine strengths and weakness and to provide information for reassessment and revisions for course.

ACTIVITY COORDINATOR TEACHER TRAINING PROGRAM

June 20, 1991

Des Moines Area Community College

Objectives:

Upon completion of the program, participants should be able to:

1. Describe the curricula changes made in the activity coordinator orientation program.
2. Select appropriate teaching techniques to assist learners in achieving objectives of program.
3. Write appropriate test questions to measure the learners progress/achievement.
4. List and explain the assessment/documentation requirements in OBRA.
5. Discuss the criteria that will be used by the Department of Inspections and Appeals to evaluate activity programs.

Workshop Schedule

9:00 A. Introductions - Overview of the Workshops - Joyce Brandt

9:15 A. Inspection and Appeals Surveys - Barbara Douglas

10:00 A. Revision made in the curriculum - Sue Newall with assistance from Committee members present.

10:30 A. Break

10:45 A. Assessment/Documentation requirements of OBRA - Sue Newall

11:45 A. Lunch

12:30 P. How to use the Behavioral Objectives - Selecting Appropriate Teaching Methods to Enhance Learning - Jane Muhl

1:45 P. Break

2:00 P. Planning the test and selecting appropriate items to evaluate Achievement - Joyce Brandt

3:00 P. Small Group Activity to review/revise/develop test items

4:15 Wrap up and Adjournment

EVALUATION OF TEACHER TRAINING PROGRAM FOR ACTIVITY COORDINATORS  
PROGRAM IN HEALTH OCCUPATIONS EDUCATION

Please assess the extend to which you felt the workshop faculty meet the objectives of the workshop. Circle the number that represents your feelings how well you feel you can now achieve the objective.

- 5 - Strongly Agree
- 4 - Agree
- 3 - Undecided
- 2 - Disagree

What do you feel was the most important competency you received from attending this workshop?						

What was included in the workshop that was not needed?

What are your suggestions for improving the workshop?

Do you feel the workshop should be required for all persons who teach the course?

If you have other suggestions or comments regarding the curricula/workshop, please turn the page and write it on the back.

What do you feel was the most important competency you received from attending this workshop?

- To write quiz and lecture
- All important
- Writing of test questions
- All of it was new to me so it was all helpful
- Test questions
- New material
- State and Federal regulations
- The textbook in general and how to utilize it
- Test writing
- Meeting you lovely people

What was included in the workshop that was not needed?

- Nothing
- N/A
- DIA possibly
- Too much time on test questions
- Nothing
- Time spent on the documentation
- Everything was wonderful

What are your suggestions for improving the workshop?

- More info needed on documentation--OBRA Reguiations
- Lengthen
- More details on some of the sections for first time instructors
- More on the actual curriculum, maybe a course outline suggestion, handout suggestions
- Longer amount of time
- Longer on material change
- More time to ask questions on documentation
- Resource lists for areas in which we are not as sure
- Have another on documentation

Do you feel the workshop should be required for all persons who teach the course?

YES - 11

NO - 0

- Strongly encourage

Other comments:

- I question why so many instructors do not work in LTC
- It was very helpful and moved right along

The University of Iowa and the Iowa Department of Education do not discriminate in their educational programs and activities on the basis of race, national origin, color, religion, sex, age, or handicap. The University and the Department also affirm their commitment to providing equal opportunities and equal access to facilities without reference to affectional or associational preference. For additional information on nondiscrimination policies, contact the Coordinator of Title IX and Section 504 in the Iowa Department of education, Grimes State Office Building, Des Moines, IA 50319, phone 515/281-8584 or the Coordinator of Title IX and Section 504 in the Office of Affirmative Action, 202 Jessup Hall, The University of Iowa, Iowa City, IA 52242, phone 319/335-0705.

## ACKNOWLEDGEMENTS

The second revision of the curriculum and handbook materials were reviewed and revised through the efforts of a state wide committee consisting of activity coordinators, health coordinators in area colleges, health care facility associations and state agency representatives. The revised curriculum is based on competencies identified by the activity coordinators and their employers throughout the state. The committee was provided a list of concerns regarding old curricula and materials that need to be emphasized in the revised curricula. Thanks and appreciation to all of the persons who recognized the need and took the time to assist in the revision of the course and Handbook.

Of great value were the contributions by the Iowa Department of Inspections and Appeals. We greatly appreciate the assistance and consultation they provided.

The revised curriculum and updated Handbook reflect the expertise of the committee who guided the development of the materials. They include:

Donna Esmay	Sandra Raggatz	Lypha Fidler
Joanne Buch	Sharon Houchin	Dorothy VanKooten
Kari Roth	Marlene Johnson	Mary Oliver
Karen Mueller	Barbara Douglas	Avis Davis
Joyce Brandt		

A SPECIAL THANKS to SUE NEWELL, author of the revised materials.

Much of the Handbook materials were used in the original Handbook developed by Avis Davis. The use of these materials in the revised Handbook are greatly appreciated. A special thanks to Avis and Iowa Lakes Community College.

Joyce Brandt, Curriculum Coordinator

## ACTIVITY COORDINATOR ORIENTATION COURSE

### Course Description

This 60 hour course is designed to prepare persons to work as activity coordinators in long term care facilities. The course includes the knowledges and skills necessary to determine facility and resident needs and plan an activity program that will meet these needs. The course has been approved by the Iowa Department of Inspections and Appeals and meets requirements for employment in nursing and residential facilities.

### Competencies

A state committee of representatives from associations, activity coordinators, and employers identified competencies they felt persons employed as activity coordinators needed. These competencies were then used to develop this course. The list of competencies can be found on the next page.

### Method

Lecture, discussion, reading assignments, role playing along with traditional classroom media are used to assist the learners to master the course objectives. In addition, there are many homework assignments that are completed in the facility setting. These assignments provide the learner opportunities to apply the classroom materials and substitute for a supervised clinical experience.

### Evaluation

Quizzes and tests will be given as determined by the local teaching agency. Several homework activities are required for each unit and an overall course project is required for successful completion of the course.

### Successful Completion

Upon successful completion the learner will be given a certificate of successful completion which will qualify them to work in the activity department of long term care facilities.

ACTIVITY COORDINATOR ORIENTATION COURSE  
COMPETENCIES

Upon successful completion of the course the participant should have the following competencies and be able to demonstrate the ability to do the tasks included in each competency.

Describe the role of the activity program in nursing facilities/hospitals work centers, residential facilities

- Define terms related to employment in activity programs
- State the purpose(s)/goals of the activity program
- List the characteristics of the nursing facilities in which the activity coordinator works
- Describe the typical organizational chart found in facilities in which there are activity programs
- List the qualification of the activity program coordinator--describe job description
- Select competencies that should be performed by activity coordinators

Interpret legal/ethical requirements for the activity coordinators

- Name state/federal agencies that provide guidelines for activity programs
- Follow rules/regulations/policies and procedures developed by facility
- Maintain good working relationship with residents, co-workers and supervisors
- Comply with legal responsibilities
- Maintain ethical behavior while performing as an activity coordinator
- Protect resident rights
- Maintain accurate documentation regarding resident progress, etc.
- Practice safety rules to protect residents and employees

Demonstrate the ability to work with residents with differing needs

- Identify how behavior relates to basic needs
- Describe "normal" needs and adaptations made by elderly
- List the characteristics of persons with disabilities
- Describe procedures the activity coordinator can use to assist the resident with disabilities
- List the characteristics of the resident with mental retardation
- Describe procedures the activity coordinator can use to assist the resident who is mentally retarded
- List the characteristics of the resident who is mentally ill and identify procedures to assist this resident
- Observe residents for any unusual behavioral or physical changes
- Properly report any resident changes
- Assist in the assessment of residents, identify problems, set goals

Provide a therapeutic activity program

- Separate activities into general categories
- State the benefits/purposes/disadvantages of various activity categories
- Match activities to individual and group resident needs/benefits
- Plan a variety of activities - field trips, music programs, exercise programs, craft programs, parties, committees, discussion groups, and mentally stimulating activities

Provide therapeutic activity program - (cont.)

Describe methods to interest and involve residents in the activity program  
Select residents that require one-to-one activities and describe how the  
one-to-one will benefit these residents  
Document activity program and resident's response to the program

Demonstrate appropriate management skills

Develop goals and set priorities for facility activity program  
Develop a monthly activity plan  
Maintain good working relationship with others through effective  
communication  
Listen to others (residents, co-workers) and use input in planning  
Organize work required and properly delegate when appropriate  
Manage time effectively  
Identify community resources that can be used to broaden an activity  
program  
Participate in overall nursing care plan meetings and help develop  
individual resident care plans  
Maintain activity program component records in compliance with policy  
and requirements

## ACTIVITY COORDINATOR ORIENTATION COURSE

Unit 1: This unit discusses the general activities program including the purpose of the program and the goals of the related philosophy. The activity coordinator job description is included with an introduction to the types of facilities in which activity coordinators are employed. Legal and ethical responsibilities of the activity coordinator are included.

Approx Class Time 6-8 hours

OBJECTIVE	CONTENT	METHOD
1.0 Discuss the purpose of the course and describe the overall objectives and requirements.	I. Introductions A. Instructor B. Students C. Course purposes 1. Use of outline/objectives 2. 1.7 Briefly describe activity professional organizations and the support offered through each organization.	VII. Professional organizations <ol style="list-style-type: none"> <li>A. Local activity organization</li> <li>B. State activity organization               <ol style="list-style-type: none"> <li>1. State - Health Care Association</li> <li>2. State-IAAC</li> <li>3. State - Therapeutic Recreation Assoc.</li> <li>4. Other organizations (OTR)</li> </ol> </li> <li>C. National activity organizations               <ol style="list-style-type: none"> <li>1. NAAP/NTRS</li> <li>a. Standards of practice</li> <li>b. Code of ethics</li> <li>2. ATRA/AAPHERD, etc</li> </ol> </li> </ol>	Handouts--NAAP, Standards of Practice, and Code of Ethics
1.7.1 Review current activity professional standards of conduct for activity coordinators.	D. National certification <ol style="list-style-type: none"> <li>1. National Certification Council of Activity Professionals (NCCAP)               <ol style="list-style-type: none"> <li>a. Certification application booklets</li> <li>b. Criteria for continuing education</li> </ol> </li> <li>2. National Council for Therapeutic Recreation Certification (NCTRC)               <ol style="list-style-type: none"> <li>a. Certification information</li> </ol> </li> </ol>	Handouts--NCCAP, NCTRC, Certification applications
1.7.2 Discuss certification as related to professionalism.		

## ACTIVITY COORDINATOR ORIENTATION COURSE

Unit 1: This unit discusses the general activities program including the purpose of the program and the goals of the related philosophy. The activity coordinator job description is included with an introduction to the types of facilities in which activity coordinators are employed. Legal and ethical responsibilities of the activity coordinator are included.

OBJECTIVE	CONTENT	METHOD
1.8 Examine the personal and professional VIII. Philosophy of activities	Lecture/discussion	
philosophy of those working with individuals in long term care activities.	<ul style="list-style-type: none"> <li>A. Rationale for activity service           <ul style="list-style-type: none"> <li>1. Medical model</li> <li>2. Wellness model</li> </ul> </li> <li>B. The long term care setting           <ul style="list-style-type: none"> <li>1. Interdepartmental care</li> <li>2. Resident's rights (see Fed. regulations)</li> <li>3. Institutionalization - infantilization issues</li> </ul> </li> <li>C. Quality of life issues</li> </ul>	<ul style="list-style-type: none"> <li>Lecture/discussion</li> <li>Homework Project 1.5</li> </ul>
1.9 Describe an activity program and list the purposes of the program.	<ul style="list-style-type: none"> <li>IX. The activity program           <ul style="list-style-type: none"> <li>A. Purpose               <ul style="list-style-type: none"> <li>1. Create a normal atmosphere for residents "Evaluation of Program"</li> <li>2. Prevent isolation, dependency, helplessness, apathy</li> <li>3. Keep resident productive, creative, increase contentment</li> <li>4. Encourage socialization</li> </ul> </li> <li>B. Goals               <ul style="list-style-type: none"> <li>1. Stimulation (physical, mental, social, spiritual, emotional)</li> <li>2. Increase self-confidence/self-respect</li> <li>3. Reason for living (useful and productive)</li> <li>4. Maintain physical strength/endurance</li> <li>5. Helps keep people more alert (increase awareness)</li> <li>6. Gain/regain role identity through socialization</li> <li>7. Helps with environmental adjustment</li> <li>8. Promote family interaction</li> <li>9. Encourages working together</li> <li>10. Increase fine and gross motor skills</li> <li>11. Increase communication (verbal/nonverbal)</li> </ul> </li> </ul> </li> </ul>	<ul style="list-style-type: none"> <li>Lecture/discussion</li> </ul>

## ACTIVITY COORDINATOR ORIENTATION COURSE

Unit 1: This unit discusses the general activities program including the purpose of the program and the goals of the related philosophy. The activity coordinator job description is included with an introduction to the types of facilities in which activity coordinators are employed. Legal and ethical responsibilities of the activity coordinator are included.

OBJECTIVE	CONTENT	METHOD
1.11 Identify the characteristics necessary for a well-rounded activity program that meets the needs of the residents.	12. Function at optimum level of independence 13. Improve use of free/leisure time 14. Provide creative/expressive outlets 15. Increase social/interactional and group skills  X. Well rounded activity program A. Based on resident needs 1. Physical 2. Social 3. Religious 4. Mental 5. Creative/expressive 6. Work/service/volunteer 7. Fun/recreational	Discussion--have students select an activity and discuss what it means to them. Compare reactions with other students.
1.12 Recognize the various reactions individuals will have to activities.	XI. Reactions to activity programs A. Past experiences B. Individual needs C. Individual interests D. Unexpected reactions	

## ACTIVITY COORDINATOR ORIENTATION COURSE

**Unit 2:** This unit examines the overall management skills needed by activity coordinators. The skills include program goal-setting, developing plans to achieve these goals, using community resources in meeting the goals, communication skills, and record keeping. Leadership and group dynamics are also discussed.

Approx. Teaching Time 16-20 hrs

OBJECTIVE	CONTENT	METHOD
<p>2.0 Discuss the various management skills required of the activity coordinator.</p> <p>2.1 Develop goals, policies and procedures for an activity program.</p>	<p>I. Management skills</p> <ul style="list-style-type: none"> <li>A. Definition</li> <li>B. What the coordinator manages           <ul style="list-style-type: none"> <li>1. Programs</li> <li>2. People, volunteers, residents</li> </ul> </li> <li>C. Policy and procedures manual</li> </ul> <p>II. Written Plan - activity program</p> <ul style="list-style-type: none"> <li>A. Philosophy/purpose of department</li> <li>B. Goals of department</li> <li>C. Policy and procedures manual</li> </ul> <p>1. Definition - Policy - general statement of the course function (what is to be done)</p> <p>2. Definition - Procedure - specific statement(s) of how the policy is to be implemented</p> <p>3. Content of manual</p> <ul style="list-style-type: none"> <li>a. General description of service (definition)</li> <li>b. Philosophy and purpose (objectives)</li> <li>c. Standards of practice (explicit and implied)</li> <li>d. Organizational structure of department           <ul style="list-style-type: none"> <li>1) Lines of authority</li> <li>2) Relationships with other departments</li> </ul> </li> <li>e. Management tools of organization/facility</li> <li>f. Programs and services</li> <li>g. Departmental record keeping</li> <li>h. Personnel policies</li> <li>i. Job descriptions</li> </ul>	<p>Lecture/discussion</p> <p>Homework Activity 2.1</p>

Unit 2: This unit examines the overall management skills needed by activity coordinators. The skills include program goal setting, developing plans to achieve these goals, using community resources in meeting the goals, communication skills, and record keeping. Leadership and group dynamics are also discussed.

OBJECTIVE	CONTENT	METHOD
2.2 Describe how the activity coordinator can use the principles of decision making.	<ul style="list-style-type: none"> <li>j. Emergency procedures           <ul style="list-style-type: none"> <li>k. Budget</li> <li>l. Other</li> </ul> </li> <li>D. Helpful hints           <ul style="list-style-type: none"> <li>1. Review manual annually--update and revise as needed</li> <li>2. Use ring notebook for easy update</li> <li>3. Index sections with tab markers</li> <li>4. Use to orient new employees</li> </ul> </li> </ul> <p>III. Decision making- problem solving</p> <ul style="list-style-type: none"> <li>A. Clearly state problem or decision to be made--whose responsibility is it?</li> <li>B. Restate the problem so everyone can understand</li> <li>C. List the different choices one has</li> <li>D. Determine the results with each choice</li> <li>E. Select the best choice</li> <li>F. Implement - evaluate</li> <li>G. When more than one decision is required           <ul style="list-style-type: none"> <li>1. Prioritize - in order of need/consequence</li> <li>2. Examine possible interrelatedness or impact on other decisions</li> </ul> </li> </ul> <p>IV. Delegation of duties/daily tasks</p> <ul style="list-style-type: none"> <li>A. Tasks the activity coordinator should do           <ul style="list-style-type: none"> <li>1. Staff relations</li> <li>2. Planning the program</li> <li>3. Some 1-1 activities</li> <li>4. Some small group activities</li> <li>5. Developing new activities and implementing them</li> <li>6. Supervision of volunteers (overall program)</li> <li>7. Documentation and record keeping</li> </ul> </li> </ul>	<p>Classroom activity 2.2 "Decision Making"</p>
2.3 Examine the day-to-day tasks that an activity coordinator performs and identify those that could be delegated to others.		

## ACTIVITY COORDINATOR ORIENTATION COURSE

**Unit 2:** This unit examines the overall management skills needed by activity coordinators. The skills include program goal setting, developing plans to achieve these goals, using community resources in meeting the goals, communication skills, and record keeping. Leadership and group dynamics are also discussed.

OBJECTIVE	CONTENT	METHOD
	B. Tasks that can be delegated 1. Showing films, parties, church, helping "Delegating" with crafts, writing letters for residents. 2. Etc. 3. Resource persons to help with tasks a. Community volunteers 1) Benefits of volunteer program 2) Recruiting/organizing volunteers b. Facility employees who volunteer c. Insurance and liability 1. In-house programs 2. Community outings--volunteer cards 3. Accidents/injuries	Homework activity 2.3
2.3.1 Relate information regarding insurance and liability of volunteers.	V. Time management A. Preplanning 1. Organize day a. Prioritize tasks b. Delegate duties as possible	
2.4 Discuss different ways the activity coordinator can "stretch" time.	B. Use time wisely 1. Blocks of time--for duties requiring concentration a. Documentation b. Program development c. Calendar preparation 2. Communication a. Be concise b. Determine best form to avoid duplication, misunderstanding, etc. 3. Time savers a. Forms/standard letters b. Files c. Label cabinets, drawers, etc. d. Hold phone calls during group meetings	30

## ACTIVITY COORDINATOR ORIENTATION COURSE

**Unit 2:** This unit examines the overall management skills needed by activity coordinators. The skills include program goal setting, developing plans to achieve these goals, using community resources in meeting the goals, communication skills, and record keeping. Leadership and group dynamics are also discussed.

OBJECTIVE	CONTENT	METHOD
<p>2.5 Plan a month's activities for the residents in the facility in which you work.</p> <p>2.5.1 List the steps required to develop a monthly calendar.</p>	<p>e. Effective vs. efficient--do it right the first time</p> <p>4. Scheduling</p> <ul style="list-style-type: none"> <li>a. Estimate time to do activity - then add 50%</li> <li>b. Avoid overcommitment--schedule/commit to 50% of day (maximum)</li> <li>c. Schedule according to personal "peak" energy time</li> <li>d. Plan personal recreation time daily</li> </ul> <p>VI. Monthly activity plan/calendar</p> <ul style="list-style-type: none"> <li>A. Meets the needs/interests of residents-- based on assessments and care Plans</li> <li>B. Meets overall program objectives</li> <li>C. Provides variety</li> <li>D. Practical - with sufficient resources</li> <li>E. Steps to develop a monthly calendar           <ul style="list-style-type: none"> <li>1. Timing the plan--start planning at least two weeks before implementation</li> <li>2. Develop a rough draft--include following               <ul style="list-style-type: none"> <li>a. Resident interests and time preference</li> <li>b. Resident needs/care plans</li> <li>c. Facility routine</li> <li>d. Independent and 1-1 activities</li> </ul> </li> </ul> </li> </ul> <p>3. Review the draft</p> <ul style="list-style-type: none"> <li>a. All departments</li> <li>b. Administrator approval</li> <li>c. Back-up plans</li> </ul> <p>4. Assisting staff and volunteers</p> <p>5. Communicating the plan</p> <ul style="list-style-type: none"> <li>a. Large calendar           <ul style="list-style-type: none"> <li>1) Posted in prominent area(s)</li> <li>2) Wheelchair height</li> <li>3) Visible print</li> </ul> </li> </ul>	<p>Homework 2.4 "Monthly Calendar"</p>
		<span style="font-size: 2em;">30' 50'</span>

## ACTIVITY COORDINATOR ORIENTATION COURSE

Unit 2: This unit examines the overall management skills needed by activity coordinators. The skills include program goal setting, developing plans to achieve these goals, using community resources in meeting the goals, communication skills, and record keeping. Leadership and group dynamics are also discussed.

OBJECTIVE	CONTENT	METHOD
2.6 Investigate community resources that can broaden the program.	<p>4) Contrasting colors        5) Clip art (PRN)        6) Include times and locations</p> <p>b. Small calendar(s)</p> <ul style="list-style-type: none"> <li>1) Residents rooms</li> <li>2) Department heads and administrator</li> <li>3) Nursing stations</li> </ul> <p>VII. Community Resources</p> <p>A. File of resources</p> <ul style="list-style-type: none"> <li>1. Index cards</li> <li>2. Rolodex</li> <li>3. Notebook</li> <li>4. Etc.</li> </ul> <p>B. Thing to include:</p> <ul style="list-style-type: none"> <li>1. Community information</li> <li>2. Educational resources</li> <li>3. Public relations - media</li> <li>4. Health organizations</li> <li>5. Aging resources</li> <li>6. Volunteers</li> <li>7. Religious agencies</li> <li>8. Activity orientation program/Business</li> <li>9. Financial resources</li> <li>10. Anything else you might use</li> </ul> <p>VIII. Using other staff</p> <p>A. Reasons</p> <ul style="list-style-type: none"> <li>1. Provides more coordination/integration</li> <li>2. Continued support for residents/helps maintain consistency</li> <li>3. Employers more supportive of program</li> <li>4. Broadens expertise in program</li> </ul> <p>B. Staff to use effectively</p> <ul style="list-style-type: none"> <li>1. Aides</li> <li>2. Nurses</li> <li>3. Others</li> </ul>	Resource File Handout  Lecture/discussion
2.7 Involve other staff in activity program.		

## ACTIVITY COORDINATOR ORIENTATION COURSE

Unit 2: This unit examines the overall management skills needed by activity coordinators. The skills include program goal setting, developing plans to achieve these goals, using community resources in meeting the goals, communication skills, and record keeping. Leadership and group dynamics are also discussed.

OBJECTIVE	CONTENT	METHOD
2.8 Explore the resources available to the activity coordinator to aid in job performance.	IX. Other Resources A. Volunteers B. Consultants/other professionals C. Staff/supervisors D. Professional organizations E. Schools F. Books, magazines, catalogues G. Professional workshops/meetings	Communication Activity 2.5 (Communications)
2.9 Discuss the importance of using effective communications with residents, staff, supervisors, and general community.	X. Communications A. Elements of communications 1. Sender 2. Communication channel 3. Receiver 4. Response B. Communications affected by 1. Feelings and emotions of sender 2. Feelings and emotions of receiver 3. Setting(s) 4. Complexity of message 5. Consistency - verbal or nonverbal	Communication Activity 2.5 (Communications)
2.9.1 Identify the types of communications.	C. Types of communication 1. Verbal (7%) 2. Nonverbal (93%) a. Body, posture, movements b. Facial expressions c. Tone of voice d. Touching e. Environmental factors 3. Written message D. Combining verbal/nonverbal 1. Reinforce each other 2. Contradict each other 3. Accent each other 4. Regulate each other	42

**ACTIVITY COORDINATOR ORIENTATION COURSE**

**Unit 2:** This unit examines the overall management skills needed by activity coordinators. The skills include program goal setting, developing plans to achieve these goals, using community resources in meeting the goals, communication skills, and record keeping. Leadership and group dynamics are also discussed.

OBJECTIVE	CONTENT	METHOD
2.9.4 Identify methods of improving verbal communication skills.	<p>5. Repeat each other</p> <p>6. Substitute for each other</p> <p>E. Communication skills</p> <ol style="list-style-type: none"> <li>1. Improving verbal communications           <ol style="list-style-type: none"> <li>a. Determine goal of communication               <ol style="list-style-type: none"> <li>1) Action</li> <li>2) Information</li> <li>3) Influence</li> </ol> </li> <li>b. What needs to be said to reach goal</li> <li>c. Select appropriate physical setting</li> <li>d. Discuss ideas with neutral persons</li> <li>e. Put yourself in receivers place</li> <li>f. Ask questions, request feedback for clarification</li> <li>g. Be consistent - present/future</li> <li>h. Be a good listener</li> <li>i. Be aware of total message, verbal/nonverbal</li> </ol> </li> </ol>	Lecture/discussion
2.9.5 List skills that can improve active listening.	<p>2. Listening</p> <p>a. Importance - 80% time awake you communicate--45% of the time spend listening</p> <p>b. Improving listening skills</p> <ol style="list-style-type: none"> <li>1) Time out personal biases/values/etc.</li> <li>2) Discipline - practice</li> <li>3) Concentration</li> <li>4) Full attention</li> <li>5) Comprehension - ask questions for clarification</li> <li>6) Allow to fully express thoughts before responding--don't interrupt!</li> <li>7) Read body language</li> <li>8) Listen courteously - control responses</li> <li>9) Give and gather feedback</li> <li>10) Accept different viewpoints</li> </ol>	<p align="center">Homework Activity 2.6 "Listening Quiz"</p>

## ACTIVITY COORDINATOR ORIENTATION COURSE

Unit 2: This unit examines the overall management skills needed by activity coordinators. The skills include program goal setting, developing plans to achieve these goals, using community resources in meeting the goals, communication skills, and record keeping. Leadership and group dynamics are also discussed.

OBJECTIVE	CONTENT	METHOD
2.9.6 Identify other communication skills and responsibilities.	<ul style="list-style-type: none"> <li>11) Focus on content, not delivery</li> <li>12) Don't be distracted</li> <li>13) Be objective - not argumentative</li> <li>14) Identify speakers purpose - listen for main idea</li> <li>15) Summarize as you listen</li> </ul> <ul style="list-style-type: none"> <li>3. Color           <ul style="list-style-type: none"> <li>a. Environment - moods</li> <li>b. Dress - personality</li> </ul> </li> <li>4. Telephone manners           <ul style="list-style-type: none"> <li>a. Promptness/identify speaker</li> <li>b. Tone of voice</li> <li>c. Understanding/recording messages</li> <li>d. Qualified information</li> <li>e. Courteous/hang up phone carefully</li> <li>f. Brief</li> </ul> </li> <li>5. Shop talk           <ul style="list-style-type: none"> <li>a. Forbidden about residents</li> <li>b. Loyalty to employer/peers</li> <li>c. Do NOT gossip</li> </ul> </li> </ul>	F.
2.9.7 Discuss reasons why communications break down.	<ul style="list-style-type: none"> <li>1. Words with different meanings</li> <li>2. Stereotyping</li> <li>3. Failure to listen</li> <li>4. Emotions interfere</li> <li>5. Mixed verbal/nonverbal messages</li> <li>6. Cultural differences</li> <li>7. Hear what we want to hear</li> </ul>	XI.
2.10 Examine how adult learning methods affect communication and resident motivation.	<ul style="list-style-type: none"> <li>A. How people learn           <ul style="list-style-type: none"> <li>1. Read</li> <li>2. Hear</li> <li>3. See</li> <li>4. Hear and see</li> </ul> </li> </ul>	10

## ACTIVITY COORDINATOR ORIENTATION COURSE

**Unit 2:** This unit examines the overall management skills needed by activity coordinators. The skills include program goal setting, developing plans to achieve these goals, using community resources in meeting the goals, communication skills, and record keeping. Leadership and group dynamics are also discussed.

OBJECTIVE	CONTENT	METHOD
2.10.1 Identify elements necessary for effective communications.	<p>5. Say 6. Do</p> <p>B. Laws of learning</p> <ol style="list-style-type: none"> <li>1. Law of exercise - learn by practice</li> <li>2. Law of readiness - when ready to act--doing so is satisfying, not doing is annoying</li> <li>3. Law of effect - people repeat what they like and avoid what they don't</li> <li>4. Law of reinforcement - behaviors positively reinforced are likely to recur</li> </ol> <p>C. Adult learning methods</p> <ol style="list-style-type: none"> <li>1. Self directed--allow to plan and conduct their own learning experiences</li> <li>2. Build on previous experiences</li> <li>3. Guided by different developmental tasks than youth</li> <li>4. Require practice applications. Organize learning experiences around life problems vs. subject topics</li> <li>5. Learn and remember requires association, concentration and repetition</li> </ol> <p>D. Instructional methods</p> <ol style="list-style-type: none"> <li>1. Lecture</li> <li>2. Discussion</li> <li>3. Audio visual aids</li> <li>4. Questions/answers</li> <li>5. Demonstration/role playing</li> <li>6. Handouts</li> <li>7. Group work (dyads/triads/fish bowls)</li> <li>8. Brainstorming</li> </ol> <p>E. Face to face (1-1) communication</p> <ol style="list-style-type: none"> <li>1. Involves giving/receiving information <ul style="list-style-type: none"> <li>a. Coaching</li> <li>b. Lecturing</li> <li>c. Listening</li> </ul> </li> </ol>	<p>Lecture/discussion</p> <p>Leadership in Rec&amp;Luis Serv. Organ.</p> <p>43</p> <p>44</p>

## ACTIVITY COORDINATOR ORIENTATION COURSE

Unit 2: This unit examines the overall management skills needed by activity coordinators. The skills include program goal setting, developing plans to achieve these goals, using community resources in meeting the goals, communication skills, and record keeping. Leadership and group dynamics are also discussed.

OBJECTIVE	CONTENT	METHOD
2.10.2	<ul style="list-style-type: none"> <li>d. Demonstrating</li> <li>e. Role playing</li> <li>f. Activity involvement</li> </ul> <p>2. Involves sharing of emotional expressions</p> <ul style="list-style-type: none"> <li>a. Love</li> <li>b. Joy</li> <li>c. Grief</li> <li>d. Sorrow</li> </ul> <p>e. Excitement</p> <p>3. Affected by personality characteristics of leader</p> <ul style="list-style-type: none"> <li>a. Empathy</li> <li>b. Genuineness</li> <li>c. Responsiveness</li> <li>d. Respect for needs of others</li> </ul> <p>4. Immediacy-disclosure of personal thoughts/feelings, etc. to create a more meaningful dialogue</p> <p>5. Confrontation - individuals are provided an opportunity to examine and modify or change their ideas or behaviors or both</p> <p>F. Group dynamics</p> <ul style="list-style-type: none"> <li>1. Leading small groups</li> <li>a. Process orientation (knowledge)</li> <li>b. Task orientation</li> <li>c. Relationship orientation</li> </ul> <p>2. Leading large groups--determine internal relationships that exist among members of group (sociogram)</p> <p>3. Evaluate effects of groups you list</p>	
2.11	<p>I. Identify the importance of the written message in communications.</p> <p>A. Represents agency/department</p> <p>B. Assembly</p> <ol style="list-style-type: none"> <li>1. Sequential</li> <li>2. Clear and concise</li> </ol>	51 50

## ACTIVITY COORDINATOR ORIENTATION COURSE

Unit 2: This unit examines the overall management skills needed by activity coordinators. The skills include program goal setting, developing plans to achieve these goals, using community resources in meeting the goals, communication skills, and record keeping. Leadership and group dynamics are also discussed.

OBJECTIVE	CONTENT	METHOD
2.13 Identify the role of the activity coordinator in record keeping.	XIV. Record keeping A. Purpose 1. Communication - goals of program 2. Communication - resident goals 3. Documentation - program and resident accomplishments 4. Provides written guide for consistency 5. Gives visibility/credibility 6. Gives basic facts for ongoing evaluation 7. Required by agency/state/federal B. Types of records 1. Resident related a. Care plans 1) MDS + RAPS + Assessment/questionnaire 2) Problems, goals, approaches 3) Progress notes 4) Physicians orders b. Activity attendance records c. Precautions list d. 1 - 1 program documentation e. Photo/media releases 2. Department related a. Resident council reports/responses b. Department policies/procedures c. Volunteer program d. Monthly calendar e. Community resource file f. Inservices g. Budget h. Inventory i. Other	Lecture/discussion
2.13.1 List the various types of records used in nursing facilities.		Reference: RAPS = Resident Assessment Protocols

ACTIVITY COORDINATOR ORIENTATION COURSE

**Unit 2:** This unit examines the overall management skills needed by activity coordinators. The skills include program goal setting, developing plans to achieve these goals, using community resources in meeting the goals, communication skills, and record keeping. Leadership and group dynamics are also discussed.

OBJECTIVE	CONTENT	METHOD
2.15.1 List the building blocks for care planning.	XV. Care plan process A. Assessment/MDS/questionnaire B. Care Plan conference 1. Problem identification 2. Goal setting 3. Approaches identified C. Implementation of care plan D. Progress notes  XVI. Comprehensive Activity Assessment (Review State and OBRA regulations) A. MDS - Section I - Activity purpose / patterns 1. Time awake 2. Average time involved in activities (potential trigger) 3. Preferred activity settings 4. General activities preferences 5. Prefers more or different activities (automatic trigger) 6. Verification - Section A - signature, title, date and sections completed B. Triggers/trigger legend 1. Definition: areas on assessment requiring further indepth examination 2. Trigger legend - summary sheet, identifying all elements requiring further study	Handout - copy MDS  (Refer to resident assessment instrument Manual -HCFA 12/1990)
2.15.2 Discuss the use of triggers.	C. RAP's - Resident Assessment Protocols 1. RAP - educational/clinical-decision facilitator. (18 RAS's) 2. RAP Guidelines--help evaluate triggered problems by providing a greater understanding of a. Problem b. Possible cause c. Impact on resident	
2.15.3 Define the RAP for activities and how it is utilized in care plan.		50 57

## ACTIVITY COORDINATOR ORIENTATION COURSE

**Unit 2:** This unit examines the overall management skills needed by activity coordinators. The skills include program goal setting, developing plans to achieve these goals, using community resources in meeting the goals, communication skills, and record keeping. Leadership and group dynamics are also discussed.

OBJECTIVE	CONTENT	METHOD
2.15.4 Describe the information to include in assessment of the resident (Activities Potential F-251).	<p>3. RAP Evaluation - determines the importance of problem - to proceed in care plan</p> <ul style="list-style-type: none"> <li>a. Requires brief focused documentation           <ul style="list-style-type: none"> <li>1) Problems</li> <li>2) Complications</li> <li>3) Risk factors - decisions to proceed with care plan</li> </ul> </li> <li>b. Assigned by R.N. coordinator</li> <li>c. Returned to R.N. coordinator</li> </ul> <p>D. Discipline specific activity assessment (Professional)</p> <ol style="list-style-type: none"> <li>1. Physical abilities           <ul style="list-style-type: none"> <li>a. Ambulation</li> <li>b. Hand dexterity</li> <li>c. Sensory - hearing, seeing</li> </ul> </li> <li>2. Mental abilities           <ul style="list-style-type: none"> <li>a. Attention span</li> <li>b. Decision-making</li> <li>c. Communication abilities</li> </ul> </li> <li>3. Psycho-social           <ul style="list-style-type: none"> <li>a. Interaction with others</li> <li>b. Community involvement</li> <li>c. Activity participation/attendance</li> <li>d. Response to activities</li> <li>e. Activity interests - past and present</li> </ul> </li> <li>4. Spiritual</li> <li>5. Biographical information</li> <li>6. Family/significant others</li> <li>7. Physical condition/precautions</li> </ol> <p>E. Time frames for assessment</p> <ol style="list-style-type: none"> <li>1. Initial Assessment - 14 days (MDS + RAPS + Professional Assessment)</li> <li>2. Reassessment/review           <ul style="list-style-type: none"> <li>a. Quarterly (Professional Assessment)</li> </ul> </li> </ol>	55
2.15.5 List the time frames for completion of the comprehensive assessment.		

## ACTIVITY COORDINATOR ORIENTATION COURSE

Unit 2: This unit examines the overall management skills needed by activity coordinators. The skills include program goal setting, developing plans to achieve these goals, using community resources in meeting the goals, communication skills, and record keeping. Leadership and group dynamics are also discussed.

OBJECTIVE	CONTENT	METHOD
2.16 Participate in developing resident care plans.	<p>b. Significant Permanent Change -within 2 weeks of stabilization, complete full MDS + RAPS professional assessment</p> <p>3. Yearly - date from most recent MDS</p> <p>a. MDS + RAPS + Prof. Assessment</p>	
2.16.1 Describe care plan meetings.	<p>XVII. Care Plans</p> <p>A. Purpose</p> <ol style="list-style-type: none"> <li>1. System of communication</li> <li>2. Consensus from team as to how resident could function more normally</li> <li>3. Consistency of defining problems, setting goals and approaches</li> <li>4. Concentrated effort toward same goals</li> <li>5. Evaluates resident as total human being</li> </ol> <p>B. Meetings (optional)</p> <ol style="list-style-type: none"> <li>1. Fastest, easiest communication</li> <li>2. Members of team meeting           <ol style="list-style-type: none"> <li>a. Nursing</li> <li>b. Social services</li> <li>c. Activities program staff</li> <li>d. Physical therapy staff</li> <li>e. Dietary</li> <li>f. Residents/families</li> <li>g. Others</li> </ol> </li> </ol> <p>C. Place and time of meetings</p> <ol style="list-style-type: none"> <li>a. Quiet where there is no interference</li> <li>b. Convenient for staff</li> <li>c. Plan future meetings based on resident needs</li> </ol>	<p>Homework Activity 2.7 "Assessing Residents Activity Needs"</p>
2.16.2 Identify the components of a resident's care plan.	<ol style="list-style-type: none"> <li>4. Development of the plan           <ol style="list-style-type: none"> <li>a. Discuss/identify problem               <ol style="list-style-type: none"> <li>1) Anything that causes resident concern in day to day activities</li> <li>2) Physical problems, hearing losses, sight problems, etc.</li> </ol> </li> </ol> </li> </ol>	

## ACTIVITY COORDINATOR ORIENTATION COURSE

**Unit 2:** This unit examines the overall management skills needed by activity coordinators. The skills include program goal setting, developing plans to achieve these goals, using community resources in meeting the goals, communication skills, and record keeping. Leadership and group dynamics are also discussed.

OBJECTIVE	CONTENT	METHOD
	3) Emotional/intellectual problems 4) Social/family situations - money, etc. 5) Behavioral patterns - aggressive-ness, etc.	Homework Activity 2.8 "Defining Resident Problems"
	b. Identification of goals 1) Determine resident needs (Maslow) 2) From needs - short term goals (Base on long term goals)	Homework Assignment 2.9 "Evaluating Objectives"
	3) Prioritize needs 4) Limit goals to one or two 5) Write in terms of resident 6) Describe behavior to be changed 7) Qualities of goals a) R-Relevant b) U-Understandable c) M-Measurable d) B-Behavioral e) A-Achievable	Homework Assignment 2.9 "Evaluating Objectives"
	8) State the goal a) Who (the resident) b) Does what (will....) c) How often (measurable frequency) d) Under what circumstances (when asked, with assist. etc.) e) By when (90 days)	Classroom Activity 2.10 "Writing Resident Goals and Objectives"
	c. Approaches 1) Directed toward fulfilling needs 2) Realistic 3) Identify who will do what when 4) Specific and individualized for each resident	Homework Assignment 2.11 "The Complete Care Plan"
2.16.3 Determine appropriate approaches to meet goal.		
2.16.4 Locate the care plan.		
	a. Part of the permanent record b. Kept in resident chart or separate folder - done in ink	62

**ACTIVITY COORDINATOR ORIENTATION COURSE**

Unit 2: This unit examines the overall management skills needed by activity coordinators. The skills include program goal setting, developing plans to achieve these goals, using community resources in meeting the goals, communication skills, and record keeping. Leadership and group dynamics are also discussed.

OBJECTIVE	CONTENT	METHOD
2.17 Identify what must be included in progress notes.	XVIII. Progress notes A. Periodic evaluation of resident progress 1. Includes a. Physical/emotional changes b. Responses to approaches c. Response to various activities d. How well short term goals were met e. Interactions with others f. Types of participation g. Changes in reactions to activities h. Any or all of the above 2. Written, when change occurs or at least every 3 MONTHS 3. Location - see policy manual B. Discharge Plans 1. Done on every resident 2. If discharge possible, must be in more depth 3. Specific and implemented prior to discharge activity information forwarded to human services or DON	c. All care plans are kept in same place d. MDS + RAPS + Department assessments + care plans, quarterly reviews must be contained in resident's record for the prior 24 month period
2.18 Discuss the need for acquiring physician's orders relating to activities.	XIX. Physician's orders A. Purpose B. Types 1. Participate in activities 2. Alcoholic beverages 3. Work therapy - specific to task 4. Volunteer program 5. Modified diet for special occasions 6. Other	

**ACTIVITY COORDINATOR ORIENTATION COURSE**

**Unit 2:** This unit examines the overall management skills needed by activity coordinators. The skills include program goal setting, developing plans to achieve these goals, using community resources in meeting the goals, communication skills, and record keeping. Leadership and group dynamics are also discussed.

OBJECTIVE	CONTENT	METHOD
2.19 Discuss the various other records the activity coordinator is required to maintain.	<p>XX. Other resident related records</p> <p>A. Attendance records - daily participation</p> <ol style="list-style-type: none"> <li>1. Not part of permanent record</li> <li>2. Required by state</li> <li>3. Kept until next care plan meeting</li> <li>4. Reason for keeping           <ul style="list-style-type: none"> <li>a. Documentation</li> <li>b. Lists residents in attendance</li> <li>c. Helps in evaluation of program</li> </ul> </li> <li>5. Types of forms used           <ul style="list-style-type: none"> <li>a. Separate sheet - each resident               <ul style="list-style-type: none"> <li>1) Allows space for information</li> <li>2) Time consuming</li> </ul> </li> <li>b. Sheet covering multiple residents               <ul style="list-style-type: none"> <li>1) Faster, convenient</li> <li>2) Less expensive</li> <li>3) Less room for detail</li> <li>4) Gives only monthly picture</li> </ul> </li> </ul> </li> <li>6. Information kept/recorded           <ul style="list-style-type: none"> <li>a. Attendance using activity codes (provide a master key)</li> <li>b. Active vs. passive participation (symbols or colored pens)</li> <li>c. Resident refusal to participate (symbol)</li> <li>d. Care plan - targeted activities (identify next to name)</li> <li>e. Trouble in activity</li> <li>f. Other</li> </ul> </li> </ol> <p>B. Precautions list/record</p> <ol style="list-style-type: none"> <li>1. Purpose - assist in regular planning and implementation of activities</li> <li>2. Identifies specific concerns, risks, and precautions for each resident</li> </ol>	C7 66
2.19.1 Describe the importance of maintaining a precautions list.		

## ACTIVITY COORDINATOR ORIENTATION COURSE

Unit 2: This unit examines the overall management skills needed by activity coordinators. The skills include program goal setting, developing plans to achieve these goals, using community resources in meeting the goals, communication skills, and record keeping. Leadership and group dynamics are also discussed.

OBJECTIVE	CONTENT	METHOD
2.19.2 Explain the necessity of keeping l-1 program records.	<ul style="list-style-type: none"> <li>3. Possible items to include:           <ul style="list-style-type: none"> <li>a. Photo restriction</li> <li>b. Diet restriction</li> <li>c. Alcohol restriction</li> <li>d. Allergies</li> <li>e. Disruptive behaviors</li> <li>f. DNR order</li> <li>g. Activity/medical restrictions/limitations</li> <li>h. Other</li> </ul> </li> <li>C. 1-1 Program Documentation           <ul style="list-style-type: none"> <li>1. Purpose - confirms therapeutic nature of activity. Goal oriented vs. chit-chat visit</li> </ul> </li> </ul>	Lecture/discussion
2.19.3 Discuss the benefits of having media releases for residents, staff and volunteers.	<ul style="list-style-type: none"> <li>2. Components           <ul style="list-style-type: none"> <li>a. Individual sheets - each resident</li> <li>b. Goal - specific to task (from care plan)</li> <li>c. Date</li> <li>d. Time involved</li> <li>e. Activity</li> <li>f. Responses/comments</li> </ul> </li> <li>3. Not part of permanent record</li> <li>D. Photo/media release           <ul style="list-style-type: none"> <li>1. Right to privacy</li> <li>2. Copyright/media laws</li> </ul> </li> </ul>	Lecture/discussion
2.20 List and explain other types of records that must be kept.	<ul style="list-style-type: none"> <li>A. Budget           <ul style="list-style-type: none"> <li>1. Yearly - projected               <ul style="list-style-type: none"> <li>a. Long range plans</li> <li>b. New activity programs</li> </ul> </li> <li>2. Include supplies, equipment, travel</li> <li>3. Current record of expenditures</li> <li>4. Current record of income               <ul style="list-style-type: none"> <li>a. Sales</li> <li>b. Donations</li> <li>c. Memorials</li> </ul> </li> </ul> </li> </ul>	63

Unit 2: This unit examines the overall management skills needed by activity coordinators. The skills include program goal setting, developing plans to achieve these goals, using community resources in meeting the goals, communication skills, and record keeping. Leadership and group dynamics are also discussed.

OBJECTIVE	CONTENT	METHOD
	B. Inventory 1. Capital equipment and cost 2. Expendable supplies and equipment and cost 3. Updated yearly a. Review program needs b. Insurance in a disaster	
2.21 Examine methods of getting the paper work done - efficiently and effectively.	XXII. General record keeping format A. Activity staff responsible B. When done 1. Block of time - scheduled each week 2. Allow enough time	

**ACTIVITY COORDINATOR ORIENTATION COURSE**

**Unit 3:** The emphasis in this unit is on the residents in long term care facilities with whom the activity coordinator will be working. The unit is designed to help the activity coordinator gain a better understanding of the variety of residents, their limitations and capabilities related to physical and mental conditions. Reasons for behaviors and theories regarding human growth and development and how people learn will be examined to increase the activity coordinator's ability to work most effectively with all residents in the facility.

Approx. Teaching Time 20-24 hrs.

OBJECTIVE	CONTENT	METHOD
3.0 Describe the various types of residents for whom the activity coordinator will be planning and implementing activities.	I. Residents in long term care facilities A. Aged B. Chronically ill C. Terminally ill D. Physically disabled E. Mentally retarded F. Mentally ill G. Dementias/Alzheimer's, etc. H. Mixed/combination types	Lecture/discussion
3.1 Examine behavior and how it relates to basic needs and human growth and development theories.	II. Human development and aging A. Human behavior 1. Definition--acting out of a feeling 2. All behavior has meaning 3. Is ever changing 4. Must understand own behavior to understand others 5. Normal vs. abnormal behavior	Lecture/discussion
3.1.1 Discuss Maslow's hierarchy of human needs as relates to human development.	B. Human needs (Maslow) 1. Physiological (survival) 2. Safety 3. Love and belonging 4. Self-esteem 5. Self-actualization	Lecture/discussion
3.2 Explore the human wellness component as related to physical and mental disabilities.	C. Human wellness 1. Self-esteem 2. Self-responsibility 3. Assertiveness	Lecture/discussion
3.3 Examine the creative potential resurgence that occurs after 70.	D. Potential, creativity and aging after 70	Homework Assignment 3.1 "Quiz on Facts on Aging"

## ACTIVITY COORDINATOR ORIENTATION COURSE

Unit 3: The emphasis in this unit is on the residents in long term care facilities with whom the activity coordinator will be working. The unit is designed to help the activity coordinator gain a better understanding of the variety of residents, their limitations and capabilities and behaviors related to physical and mental conditions. Reasons for behaviors and theories regarding human growth and development and how people learn will be examined to increase the activity coordinator's ability to work most effectively with all residents in the facility.

OBJECTIVE	CONTENT	METHOD
3.4 Discuss societal and personal beliefs/attitudes regarding aging.	III. Attitudes of aging A. Old vs. youth B. Independence C: Autonomy D. Empowerment E. Stereotypes 1. Appearance and health 2. Attitude/personality 3. Spirituality 4. Finances 5. Other	Classroom activity: "Attitudes Toward Aging Scale Quiz" or "Facts About Dying Quiz" Suggested resource: Leo Missinne "All You Could Forget About Older People" Palo Alto, CA: R & E Research Associates, Inc. 1981. Fact sheet on aging/disabled.
3.4.1 Examine stereotypes of aging.	IV. Theories of aging A. Biological 1. Wear and tear 2. Biological clock 3. Auto immune 4. Other	Resource: "Emergent Theories of Aging" Passuth and Elbents, 1990.
3.5 Explore the various theories of aging.	B. Social 1. Disengagement 2. Activity 3. Other	V. The aging process A. Universal B. Normal C. Variable D. Dying is normal and inevitable E. Illness is not always a part of aging F. 3 generations in current aging G. Older people continue to learn H. Older people can change I. Older people want to be selfdirecting J. Older people are vital human beings

## ACTIVITY COORDINATOR ORIENTATION COURSE

Unit 3: The emphasis in this unit is on the residents in long term care facilities with whom the activity coordinator will be working. The unit is designed to help the activity coordinator gain a better understanding of the variety of residents, their limitations and capabilities and behaviors related to physical and mental conditions. Reasons for behaviors and theories regarding human growth and development and how people learn will be examined to increase the activity coordinator's ability to work most effectively with all residents in the facility.

OBJECTIVE	CONTENT	METHOD
3.7 Examine the various physical changes that occur as one ages.	<p>VI. Physical changes that do occur</p> <ul style="list-style-type: none"> <li>A. Musculoskeletal           <ul style="list-style-type: none"> <li>1. Mobility</li> <li>2. Strength</li> <li>3. Coordination/balance</li> <li>4. Flexibility</li> <li>5. Bone and joint</li> </ul> </li> <li>B. Respiratory - lung capacity</li> <li>C. Cardiovascular - circulation           <ul style="list-style-type: none"> <li>1. Blood flow</li> <li>2. Vessels</li> <li>3. Endurance</li> </ul> </li> <li>D. Senses           <ul style="list-style-type: none"> <li>1. Hearing</li> <li>2. Vision</li> <li>3. Taste</li> <li>4. Touch</li> <li>5. Smell</li> </ul> </li> <li>E. Kidney/urinary</li> <li>F. Digestive</li> <li>G. Brain and nervous system</li> <li>H. Skin and hair changes</li> <li>I. Sexual activity</li> </ul>	Lecture/discussion
3.8 Explore the various mental changes that occur as one ages.	<p>VII. Mental changes that do occur</p> <ul style="list-style-type: none"> <li>A. Learning--information gathering           <ul style="list-style-type: none"> <li>B. Memory               <ul style="list-style-type: none"> <li>1. Long term</li> <li>2. Short term</li> </ul> </li> <li>C. Attention span</li> <li>D. Disengagement</li> <li>E. Decision making</li> </ul> </li> </ul>	<span style="font-size: 2em;">77</span> <span style="font-size: 1.5em;">70</span>

## ACTIVITY COORDINATOR ORIENTATION COURSE

Unit 3: The emphasis in this unit is on the residents in long term care facilities with whom the activity coordinator will be working. The unit is designed to help the activity coordinator gain a better understanding of the variety of residents, their limitations and capabilities and behaviors related to physical and mental conditions. Reasons for behaviors and theories regarding human growth and development and how people learn will be examined to increase the activity coordinator's ability to work most effectively with all residents in the facility.

OBJECTIVE	CONTENT	METHOD
3.9 Describe the various psychosocial changes that occur as one ages.	VIII. Psychosocial changes that do occur A. Disengagement 1. Decreasing numbers of significant others 2. Finances 3. Transportation B. Self-esteem/concept C. Role identity 1. Job oriented 2. Role reversal--family D. Respect E. Intimacy/touch F. Leisure G. Socialization H. Age "norms"	Refer to F290-291 OBRA survey
3.10 Discuss the various spiritual changes that occur as one ages.	I. Successful adaptations A. Ego integrity (self) B. Workshop/religion C. Death and dying IX. Spirituality changes that do occur A. Five stages of grief (Kubler-Ross) 1. Denial b. Anger c. Bargaining d. Depression e. Acceptance	Lecture/discussion
3.10.1 Explore participants' experiences with death and dying and their comfort in dealing with death.	2. Activity coordinator involvement a. Silent support b. Anger venting phase c. Make comfortable d. "Closure" e. Encourage family	

**ACTIVITY COORDINATOR ORIENTATION COURSE**

Unit 3: The emphasis in this unit is on the residents in long term care facilities with whom the activity coordinator will be working. The unit is designed to help the activity coordinator gain a better understanding of the variety of residents, their limitations and capabilities and behaviors related to physical and mental conditions. Reasons for behaviors and theories regarding human growth and development and how people learn will be examined to increase the activity coordinator's ability to work most effectively with all residents in the facility.

OBJECTIVE	CONTENT	METHOD
3.11 Investigate the causes of diseases and common diseases/disorders that affect the aging.	X. Diseases A. Causes of diseases for all 1. Infection 2. Deficiency 3. Congenital diseases 4. Degenerative 5. Abnormal growths B. Chronic diseases/disorders of elderly 1. Arteriosclerosis 2. Cardiac a. High blood pressure (hypertension) b. Congestive heart failure c. Angina d. Other circulatory 3. Neurological a. Cerebro-Vascular Accident (CVA/stroke) b. Parkinson's Disease 4. Arthritis a. Rheumatoïd b. Osteoarthritis 5. Diabetes 6. Communicable diseases a. MRSA b. Hepatitis c. AIDS 7. Cancer 8. Alcohol and chemical dependency	XI. Impact of illness on aging A. Physical impact 1. Definition: a. Impairment b. Disability Handout
3.12 Discuss the physical, cognitive, and affective impact of each above illness/dysfunction on normal aging using a wholistic approach.		E1 80

## ACTIVITY COORDINATOR ORIENTATION COURSE

Unit 3: The emphasis in this unit is on the residents in long term care facilities with whom the activity coordinator will be working. The unit is designed to help the activity coordinator gain a better understanding of the variety of residents, their limitations and capabilities and behaviors related to physical and mental conditions. Reasons and theories regarding human growth and development and how people learn will be examined to increase the activity coordinator's ability to work most effectively with all residents in the facility.

OBJECTIVE	CONTENT	METHOD
3.12.1 Describe the needs of the resident focusing on physical limitations.	2. Characteristics <ul style="list-style-type: none"> <li>a. Decreased range of motion</li> <li>b. Pain</li> <li>c. Paralysis</li> <li>d. Endurance</li> <li>e. Strength</li> <li>f. Mobility</li> </ul> 1) Architectural barriers <ul style="list-style-type: none"> <li>g. ADL's Performance</li> </ul> B. Cognitive impact <ul style="list-style-type: none"> <li>1. Memory</li> <li>2. Decision making</li> <li>3. Information processing</li> <li>4. Attention span</li> </ul> C. Affective impact <ul style="list-style-type: none"> <li>1. Frustration</li> <li>2. Feelings of inadequacy</li> <li>3. Expression of feelings</li> <li>4. Social and psychological withdrawal</li> </ul>	Classroom activity 3.2 "How it feels to have a Physical Disability"
3.12.2 Describe the needs of the resident focusing on cognitive limitations.	D. Assisting the resident <ul style="list-style-type: none"> <li>1. Use of adaptive equipment</li> <li>2. Encourage residents to do as much for self as possible</li> <li>3. Be encouraging with whatever progress they make</li> <li>4. Eliminate architectural barriers</li> <li>5. Select accomplishable tasks</li> <li>6. Use O.T., P.T., R.T. consultants</li> <li>7. Use structure activities--easier to do</li> </ul>	XII. Communication limitations <ul style="list-style-type: none"> <li>A. Effects of communication limitations               <ul style="list-style-type: none"> <li>1. Decreased environmental stimulation</li> </ul> </li> </ul>
3.12.3 Describe the needs of the resident focusing on affective limitations.		Lecture/discussion Classroom activity 3.3 "Hearing Loss Tape"
3.12.4 Discuss methods of assisting the resident in general.		
3.13 Discuss residents who have communication problems.		

**ACTIVITY COORDINATOR ORIENTATION COURSE**

Unit 3: The emphasis in this unit is on the residents in long term care facilities with whom the activity coordinator will be working. The unit is designed to help the activity coordinator gain a better understanding of the variety of residents, their limitations and capabilities and behaviors related to physical and mental conditions. Reasons for behaviors and theories regarding human growth and development and how people learn will be examined to increase the activity coordinator's ability to work most effectively with all residents in the facility.

OBJECTIVE	CONTENT	METHOD
	2. Isolation/loneliness/depression B. Hearing losses 1. Causes 2. Results 3. Adaptation of activities a. Face when communicating with b. Encourage use of other senses, especially sight c. Write messages d. Use blackboard for general directions or give handouts e. Use bulletin boards f. Substitute touch 1) Touch lightly 2) Let them see/feel a craft 3) Show instead of telling 4) Give step by step instructions 4. Use what hearing is left a. Talk to them not about them b. Use low tones-easier to hear c. Talk slower, distinctly, pause between sentences d. Give them a front seat e. Use ear phones, church, etc. f. Work in small groups, cuts down other noises 5. Hearing devices a. How they work b. Care of devices	65  64

## ACTIVITY COORDINATOR ORIENTATION COURSE

Unit 3: The emphasis in this unit is on the residents in long term care facilities with whom the activity coordinator will be working. The unit is designed to help the activity coordinator gain a better understanding of the variety of residents, their limitations and capabilities and behaviors related to physical and mental conditions. Reasons for behaviors and theories regarding human growth and development and how people learn will be examined to increase the activity coordinator's ability to work most effectively with all residents in the facility.

OBJECTIVE	CONTENT	METHOD
3.13.1 Investigate ways to more effectively work with the resident with visual impairment.	<p>C. Visual impairment</p> <ul style="list-style-type: none"> <li>1. Definition of blindness</li> <li>2. Functional blindness</li> <li>3. Causes of blindness</li> <li>4. Other factors that affect sight</li> </ul> <p>a. Amount of contrast</p> <p>b. Amount of illumination</p> <p>c. Reflection or glare</p> <p>d. Fatigue</p> <p>e. Motivation</p> <p>f. Perception caused by neuro damage</p> <p>g. Tension/anxiety</p> <p>5. Adaptations to assist visually impaired</p> <ul style="list-style-type: none"> <li>a. Substitute hearing</li> <li>b. Substitute touch</li> <li>c. Encourage use of what vision remains           <ul style="list-style-type: none"> <li>1) Sit in front</li> <li>2) Avoid glare, have enough light</li> <li>3) Use contrast in posters, etc.               <ul style="list-style-type: none"> <li>a) Orange, yellow, red</li> </ul> </li> <li>4) Use large print</li> <li>d. Braille cards</li> <li>e. Raised surfaces</li> <li>f. Talking books</li> </ul> </li> <li>g. Specific verbal instructions</li> <li>h. Cuing (noise) for location in space</li> </ul> <p>D. Residents with aphasia</p> <ul style="list-style-type: none"> <li>1. Definition</li> <li>2. Types</li> <li>3. Causes</li> </ul>	Lecture/discussion
3.13.2 Discuss the needs of residents with aphasia and adapt activities for them.		Lecture/discussion

ACTIVITY COORDINATOR ORIENTATION COURSE

Unit 3: The emphasis in this unit is on the residents in long term care facilities with whom the activity coordinator will be working. The unit is designed to help the activity coordinator gain a better understanding of the variety of residents, their limitations and capabilities and behaviors related to physical and mental conditions. Reasons for behaviors and theories regarding human growth and development and how people learn will be examined to increase the activity coordinator's ability to work most effectively with all residents in the facility.

OBJECTIVE	CONTENT	METHOD
3.14 Discuss mental retardation and describe behavior of the mentally retarded.	<p>4. Adaptations</p> <ul style="list-style-type: none"> <li>a. Treat as normal intelligence</li> <li>b. Encourage self sufficiency</li> <li>c. Encourage, do not demand speech</li> <li>d. Use flash cards or communication boards</li> <li>e. Ask simple questions</li> <li>f. Encourage reading/writing</li> <li>g. When tired, frustrated, change</li> <li>h. Speak slower, more distinctly</li> <li>i. Communicate in writing if they can read</li> <li>j. Assist others to communicate with them</li> <li>k. Use speech therapist consultant</li> </ul> <p>XIII. Mentally retarded</p> <p>A. Definition (AAMD)</p> <ol style="list-style-type: none"> <li>1. ## ACTIVITY COORDINATOR ORIENTATION COURSE

Unit 3: The emphasis in this unit is on the residents in long term care facilities with whom the activity coordinator will be working. The unit is designed to help the activity coordinator gain a better understanding of the variety of residents, their limitations and capabilities and behaviors related to physical and mental conditions. Reasons for behaviors and theories regarding human growth and development and how people learn will be examined to increase the activity coordinator's ability to work most effectively with all residents in the facility.

OBJECTIVE	CONTENT	METHOD
	c. Adults <ul style="list-style-type: none"> <li>1) Vocational responsibility</li> <li>2) Social responsibility</li> </ul> 3. Acquisition during developmental period Appear between prenatal and 18 years	
3.14.1 Explore personal misconceptions of the mentally retarded.	B. Myths and misconceptions of retarded <ul style="list-style-type: none"> <li>1. Irrational and uncontrollable</li> <li>2. Feel sorry for them</li> <li>3. Dumb, can't learn</li> <li>4. Funny looking</li> <li>5. Don't know right from wrong</li> <li>6. Need to be taken care of always</li> <li>7. Don't grow up</li> <li>8. Totally unaware</li> </ul> C. Causes <ul style="list-style-type: none"> <li>1. Inherited</li> <li>2. Genetic</li> <li>3. Infections</li> <li>4. Trauma/accidents</li> <li>5. Toxins</li> </ul> D. Classifications <ul style="list-style-type: none"> <li>1. Mild</li> <li>2. Moderate</li> <li>3. Severe/Profound</li> </ul> E. Dangers of classification <ul style="list-style-type: none"> <li>F. Characteristics of MR               <ul style="list-style-type: none"> <li>1. Developmental</li> <li>a. Physical skills (motor skills)</li> <li>b. Self care</li> <li>c. Auditory and visual perceptions</li> </ul> </li> </ul>	
3.14.2 Identify causes of MR.		
3.14.3 Define the 3 current classifications of MR and how this impacts activity programming.		Refer to "Therapeutic Recreation and Adapted Physical Activities for Mentally Retarded Individual" by Crawford & Mendell, Prentice-Hall, 1987.
3.14.4 Discuss the various characteristics of MR as related to the above classifications.		

ACTIVITY COORDINATOR ORIENTATION COURSE

Unit 3: The emphasis in this unit is on the residents in long term care facilities with whom the activity coordinator will be working. The unit is designed to help the activity coordinator gain a better understanding of the variety of residents, their limitations and capabilities and behaviors related to physical and mental conditions. Reasons for behaviors and theories regarding human growth and development and how people learn will be examined to increase the activity coordinator's ability to work most effectively with all residents in the facility.

OBJECTIVE	CONTENT	METHOD
	<ol style="list-style-type: none"> <li>2. Intellectual             <ol style="list-style-type: none"> <li>a. Verbal communication</li> <li>b. Emphasis is placed on the appropriateness and execution of various activities for residents with special problems. Therapeutic modalities, activity adaptations, and activity analysis are discussed. Steps of activity implementation are also defined.

OBJECTIVE	CONTENT	METHOD
	j. Environmental/aquatics k. Hobbies 3. Supportive a. 1-1 program b. Low functioning 1) Physical 2) Mental c. Therapeutic activities 1) Reality orientation 2) Remotivation 3) Sensory stimulation 4) Validation therapy 5) Reminiscing and life review 6) Pet therapy 7) Horticulture therapy 8) Therapeutic arts (music, dance, art, poetry, drama)	
4.1.2 Identify the different styles that can be utilized in planning activities.	c. Styles of activities 1. Structured vs. unstructured 2. Class vs. drop-in 3. Competitive 4. Special interest 5. Special event	
4.2 Identify what the activity coordinator needs to know to plan the program.	III. Need identification A. Types of residents B. Needs of residents--interdisciplinary plan C. Numbers of residents who need individual or one-to-one programs D. Resources available in facility E. Personnel available and when available F. Accessibility and program barriers	150 151

ACTIVITY COORDINATOR ORIENTATION COURSE

Unit 4: This unit addresses the activity program. The learner will be exposed to various types of activities' appropriate for residents in long term care facilities. Emphasis is placed on the appropriateness and execution of various activities for residents with special problems. Therapeutic modalities, activity adaptations, and activity analysis are discussed. Steps of activity implementation are also defined.

OBJECTIVE	CONTENT	METHOD
4.3 Discuss activities that help residents maintain their self-image.	<p>IV. Activities to promote self-image</p> <p>A. Definition--qualities that make us unique (e.g., attractiveness, neatness, creativity, intelligence, friendliness, etc.)</p> <p>B. Effect of illness and institutionalization on self-image</p> <ol style="list-style-type: none"> <li>1. Dependence on others</li> <li>2. Decrease in space in which to function</li> <li>3. Loss of control of your life</li> <li>4. Decline in personal appearance</li> <li>5. Change in quality of life</li> </ol> <p>C. Negative effects of activity programs</p> <ol style="list-style-type: none"> <li>1. Threatens if it requires people to perform activities they have trouble with</li> <li>2. Demeaning if activities are childish</li> <li>3. Frustrating if activities are sexist--older residents may have preconceived ideas about what men and women should do</li> <li>4. Boring when there is no variety</li> <li>5. Uninteresting if stereotyped (e.g., this is what nursing home residents do)</li> </ol> <p>D. Often men need special encouragement to participate in activities</p> <ol style="list-style-type: none"> <li>1. They have not been used to leisure activities</li> <li>2. May feel typical activities are feminine</li> <li>3. Activities that may appeal to more men <ul style="list-style-type: none"> <li>a. Sports, exercises, woodworking</li> <li>b. Volunteer work, leadership roles</li> </ul> </li> </ol>	<p>Lecture/discussion</p> <p>Lecture/discussion</p>

## ACTIVITY COORDINATOR ORIENTATION COURSE

Unit 4: This unit addresses the activity program. The learner will be exposed to various types of activities appropriate for residents in long term care facilities. Emphasis is placed on the appropriateness and execution of various activities for residents with special problems. Therapeutic modalities, activity adaptations, and activity analysis are discussed. Steps of activity implementation are also defined.

OBJECTIVE	CONTENT	METHOD
4.4 Examine the need and purpose of forming a resident council.	V. Resident council A. Purpose and function 1. Information - communication 2. Input for activities or other resident needs 3. Grievances 4. Planning group(s) 5. Provide services to others a. Welcome committee b. Shop - cart c. Community projects d. Other	120
4.4.1 Investigate the facility's responsibilities to a resident's / family council.	B. Federal regulations 1. Right to organize and participate in resident groups in the facility 2. Private space 3. Staff or visitors must be invited 4. Designated staff-facilitator (AC) a. Respond to request 5. Facility must listen to views and act upon grievances and recommendations of residents regarding policy and operational decisions affecting resident care and life in the facility	121
4.4.2 Discuss the various formations of resident councils.	C. Make up of council 1. All residents vs. representatives 2. Election vs. appointment 3. Officers vs. steering committee 4. Duties of members 5. Term of office(s)	
	D. Decision-making process 1. Majority vs. simple majority 2. Quorum	

## ACTIVITY COORDINATOR ORIENTATION COURSE

Unit 4: This unit addresses the activity program. The learner will be exposed to various types of activities appropriate for residents in long term care facilities. Emphasis is placed on the appropriateness and execution of various activities for residents with special problems. Therapeutic modalities, activity adaptations, and activity analysis are discussed. Steps of activity implementation are also defined.

OBJECTIVE	CONTENT	METHOD
<p>4.4.3 List the items that should be addressed at any/each resident council meeting.</p> <p>4.5 Describe effective methods to use residents on committees.</p>	<p>E. Suggested agenda for meetings</p> <ol style="list-style-type: none"> <li>1. Call to order</li> <li>2. Roll call</li> <li>3. Reading and approval of past minutes</li> <li>4. Guest speakers (if any)</li> <li>5. Committee reports</li> <li>6. Activity input - program and calendar</li> <li>7. Old business and responses</li> <li>8. New business</li> <li>9. Members - general comments and concerns</li> <li>10. Adjournment</li> </ol> <p>F. Resident council concerns and responses</p> <ol style="list-style-type: none"> <li>1. Minutes and response form(s)</li> <li>2. Timelines and appropriateness of responses</li> </ol> <p>VI. Committees</p> <p>A. Advantages for residents</p> <ol style="list-style-type: none"> <li>1. Builds self-esteem</li> <li>2. Gives some control back to resident</li> <li>3. Allows pursuit of special interest</li> <li>4. Assists the coordinator</li> <li>5. Encourages socialization</li> </ol> <p>B. Development of committees</p> <ol style="list-style-type: none"> <li>1. Outline/explain responsibilities</li> <li>2. Orient staff/residents of purpose</li> <li>3. Develop criteria for membership</li> <li>4. Set up meetings, time, place</li> <li>5. Determine length of membership</li> <li>6. Keep committee focusing on positive</li> </ol> <p>C. Prevent problems such as</p> <ol style="list-style-type: none"> <li>1. Change of goals of committee</li> <li>2. Jealousy/competition for membership</li> <li>3. Insecurity of staff as to real purpose</li> </ol>	<p>Homework Activity 4.1 Report from student on committee activity in their facility Lecture/discussion</p>
		<p>122</p> <p>123</p>

Sellable</li> </ul> </li> </ul>	120

**ACTIVITY COORDINATOR ORIENTATION COURSE**

Unit 4: This unit addresses the activity program. The learner will be exposed to various types of activities appropriate for residents in long term care facilities. Emphasis is placed on the appropriateness and execution of various activities for residents with special problems. Therapeutic modalities, activity adaptations, and activity analysis are discussed. Steps of activity implementation are also defined.

OBJECTIVE	CONTENT	METHOD
4.7.2 Examine the process of selecting appropriate crafts for each resident.	<p>E. Selecting appropriate crafts (activity analysis)</p> <ol style="list-style-type: none"> <li>1. Resident's abilities           <ol style="list-style-type: none"> <li>a. Joint motion, body parts necessary</li> <li>b. Strength to do project</li> <li>c. Kind of movement able to do</li> <li>d. Functioning sensory organs</li> <li>e. Mental abilities (directions, memory, etc.)</li> </ol> </li> <li>2. Resident's interests and cultural background</li> <li>3. Craft requirements           <ol style="list-style-type: none"> <li>a. Joint motion, body parts necessary</li> <li>b. Strength, endurance, coordination</li> <li>c. Length of time to complete</li> <li>d. Mental skills required</li> <li>e. Sensory organs required</li> </ol> </li> <li>4. Use for purpose of object being made</li> <li>5. Adaptations available/required           <ol style="list-style-type: none"> <li>a. Substitute different body parts, positions</li> <li>b. Break down steps (task analysis)</li> <li>c. Substitute materials (lighter, larger, colors, etc.)</li> <li>d. Substitute adapted equipment (built-up handles, sizes, weight, WC tables, etc.)</li> <li>e. Substitute different methods of execution/performance</li> <li>f. Staff to assist as needed</li> </ol> </li> </ol>	Lecture/discussion Classroom activity Craft adaptations
4.7.3 Identify adaptations in crafts that should be made to meet individual resident needs.		120

## ACTIVITY COORDINATOR ORIENTATION COURSE

**Unit 4:** This unit addresses the activity program. The learner will be exposed to various types of activities appropriate for residents in long term care facilities. Emphasis is placed on the appropriateness and execution of various activities for residents with special problems. Therapeutic modalities, activity adaptations, and activity analysis are discussed. Steps of activity implementation are also defined.

OBJECTIVE	CONTENT	METHOD
4.7.4 List the steps for teaching residents crafts.	F. Teaching crafts <ul style="list-style-type: none"> <li>1. Prepare material/work area</li> <li>2. Break craft into separate steps</li> <li>3. Have a finished project to show before starting</li> <li>4. Show resident how to do each step then allow to do</li> <li>5. Use visual aids to show each step</li> <li>6. Stress short cuts and safety measures</li> <li>7. Be encouraging</li> <li>8. Supervise and make suggestions and appropriate corrections as errors occur</li> <li>9. Have student repeat verbal directions to reinforce learning if needed</li> <li>10. Reduce supervision as resident's work improves</li> <li>11. Let residents familiar with a craft teach it</li> </ul>	Lecture/discussion Report on how one facility uses music in program (student)
4.8 Discuss how music can be used as part of an activity program.	IX. Music <ul style="list-style-type: none"> <li>A. Benefits of music programs               <ul style="list-style-type: none"> <li>1. Socialization--sense of unity</li> <li>2. Emotional/physical stimulation</li> <li>3. Reinforcement of present</li> <li>4. Stimulation of memory</li> <li>5. Relaxation/emotions release</li> <li>6. Focus attention away from self</li> <li>7. Self expression/creativity</li> <li>8. Group or individual activity</li> </ul> </li> <li>B. Drawbacks to music programs               <ul style="list-style-type: none"> <li>1. Some people do not feel comfortable, because they have no sense for it</li> </ul> </li> </ul>	Students discuss feelings regarding their musical abilities

## ACTIVITY COORDINATOR ORIENTATION COURSE

**Unit 4:** This unit addresses the activity program. The learner will be exposed to various types of activities appropriate for residents in long term care facilities. Emphasis is placed on the appropriateness and execution of various activities for residents with special problems. Therapeutic modalities, activity adaptations, and activity analysis are discussed. Steps of activity implementation are also defined.

OBJECTIVE	CONTENT	METHOD
4.8.1 Determine criteria for selecting music for the program.	<p>2. Music elicits many responses in different people, e.g., excitement, sorrow, etc.</p> <p>C. Selecting the music</p> <ol style="list-style-type: none"> <li>1. Qualities to consider           <ol style="list-style-type: none"> <li>a. Tempo</li> <li>b. Rhythm</li> <li>c. Volume</li> <li>d. Complexity</li> </ol> </li> </ol> <p>2. Match above to purpose/goals of the activity</p> <p>D. Uses of music</p> <ol style="list-style-type: none"> <li>1. Listening/relaxing/appreciation</li> <li>2. Participant listening           <ol style="list-style-type: none"> <li>a. Related to stories</li> <li>b. Study of history</li> </ol> </li> <li>3. Group singing - holidays especially</li> <li>4. Playing instruments</li> <li>5. With other activities, exercises, talent show</li> <li>6. Soothing/relaxing especially for Alzheimer's</li> </ol> <p>E. Listening good in one-to-one activities</p> <p>X. Independent activities</p> <p>A. Types of residents</p> <ol style="list-style-type: none"> <li>1. Choose not to leave their rooms</li> <li>2. Choose not to attend group programs</li> <li>3. Self-motivated concerning recreational interests</li> </ol> <p>B. Responsibilities of the AC</p> <ol style="list-style-type: none"> <li>1. Assess interests of all residents who do not attend group programs at least once a week</li> </ol>	<p>Listen to various music Have students determine how it makes them feel</p> <p>Lecture/discussion</p>
4.8.2 Describe the various uses of music in an activity program.	<p>2. Participant listening</p> <p>a. Related to stories</p> <p>b. Study of history</p> <p>3. Group singing - holidays especially</p> <p>4. Playing instruments</p> <p>5. With other activities, exercises, talent show</p> <p>6. Soothing/relaxing especially for Alzheimer's</p>	
4.9 Discuss the AC's role in assisting residents who desire independent activities.	<p>4. Playing instruments</p> <p>5. With other activities, exercises, talent show</p> <p>6. Soothing/relaxing especially for Alzheimer's</p>	

## ACTIVITY COORDINATOR ORIENTATION COURSE

**Unit 4:** This unit addresses the activity program. The learner will be exposed to various types of activities appropriate for residents in long term care facilities. Emphasis is placed on the appropriateness and execution of various activities for residents with special problems. Therapeutic modalities, activity adaptations, and activity analysis are discussed. Steps of activity implementation are also defined.

OBJECTIVE	CONTENT	METHOD
4.10 Assess the need for a well organized exercise program.	<p>2. Examine program appropriateness</p> <p>3. Offer to supply craft items, books, puzzles, etc. once a week</p> <p>4. Encourage social interaction for residents with like interests</p> <p>5. Make list of those residents requiring any assistance with their independent activities</p> <p>6. Document AC involvement on daily attendance. Record and note in progress notes</p>	Report from student on a successful exercise program in their facility
4.10.1 List criteria for planning an effective exercise program.	<p>XI. Exercise programs</p> <p>A. Advantages</p> <p>1. Preserve muscle tone</p> <p>2. Maintain good circulation, respirations and other bodily functions</p> <p>3. Relaxation</p> <p>4. Socialization</p> <p>B. Planning the program</p> <p>1. Level of ability of residents</p> <p>2. Three levels</p> <p>a. Level one--more physically active</p> <p>b. Level two--residents with limitations</p> <p>c. Level three--room or bed restricted</p> <p>3. Levels two and three refer to care plan for physician order</p> <p>4. Use commercial records/tapes to preview for appropriateness</p> <p>5. Leader present for safety</p> <p>C. Principles for program</p> <p>1. Not physical therapy/residents move their own limbs</p> <p>2. Always have warm-up first</p>	Classroom activity 4.3

4.15.1 Anticipate the types of problems that might occur on outings.		<p>144</p> <p>145</p>

## ACTIVITY COORDINATOR ORIENTATION COURSE

Unit 4: This unit addresses the activity program. The learner will be exposed to various types of activities appropriate for residents in long term care facilities. Emphasis is placed on the appropriateness and execution of various activities for residents with special problems. Therapeutic modalities, activity adaptations, and activity steps of activity implementation are also defined.

OBJECTIVE	CONTENT	METHOD
4.16 Recognize the need for and the method of developing one-to-one activities.	4. Facility policy regarding trips/ emergencies 5. DNR status of residents 6. First aid certification/CPR 7. Medications--appropriate personnel 8. Plastic bags/garbage bags 9. Method of communication (emergency) 10. Allergies/medication reactions regarding outdoors/sun, etc. 11. List of all persons on trip 12. Extra water/cups 13. Food supplies - proper storage 14. Name tags for persons and possessions (WC's, pads, etc.) 15. Accessibility barriers 16. Map of area 17. Proper attire for all-weather 18. Extra money 19. Special diets/assistance required 20. Resident/staff-volunteer ratio 21. Doctor's orders--restricting outings? 22. Don't forget the camera and film 23. Fishing License a. Iowa Conservation Commission application - special resident, fishing license for severely handicapped	Lecture/discussion Report of student who been working on a one- to-one activities
4.17	XVII. One-to-one activities A. Definition B. Types of residents who benefit 1. Bed or roomfast residents 2. Shy, withdrawn residents 3. Uninterested residents	147

## ACTIVITY COORDINATOR ORIENTATION COURSE

**Unit 4:** This unit addresses the activity program. The learner will be exposed to various types of activities appropriate for residents in long term care facilities. Emphasis is placed on the appropriateness and execution of various activities for residents with special problems. Therapeutic modalities, activity adaptations, and activity analysis are discussed. Steps of activity implementation are also defined.

OBJECTIVE	CONTENT	METHOD
<p>4.16.1 Identify personnel involved in delivering a one-to-one program.</p> <p>4.16.2 List the steps for establishing one-to-one activities.</p>	<p>4. Persons with severe communication problems</p> <p>5. Uncooperative residents or those who disrupt groups</p> <p>C. Personnel</p> <ul style="list-style-type: none"> <li>1. Activity staff</li> <li>2. Family member</li> <li>3. Friend</li> <li>4. Staff member</li> <li>5. Volunteer(s)</li> </ul> <p>D. Steps for one-to-one (1-1) program and frequency of visits</p> <p>1. Assessment--identify needs</p> <p>2. Care plan</p> <p>a. Identify goal(s) of tasks in 1-1 program and frequency of visits</p> <p>1) minimum 1 x week</p> <p>b. Identify specific approaches and personnel</p> <p>3. Implementation</p> <p>a. Devise specific schedule of times, variety of activities and personnel</p> <p>b. Prepare comprehensive, portable activity kit for each resident</p> <ul style="list-style-type: none"> <li>1) Variety allows you to meet daily status/desires of resident</li> <li>2) Adapted supplies/equipment</li> </ul> <p>c. Review schedule regularly to ensure it is followed</p> <p>d. Document each visit--date, time, resident response to activity</p> <p>4. Evaluate 1-1 program and activities periodically each quarter</p>	<p style="margin-right: 10px;">140</p> <p style="margin-right: 10px;">141</p>

**ACTIVITY COORDINATOR ORIENTATION COURSE**

Unit 4: This unit addresses the activity program. The learner will be exposed to various types of activities appropriate for residents in long term care facilities. Emphasis is placed on the appropriateness and execution of various activities for residents with special problems. Therapeutic modalities, activity adaptations, and activity analysis are discussed. Steps of activity implementation are also defined.

OBJECTIVE	CONTENT	METHOD
4.16.3 Anticipate the types of problems that might occur with one-to-ones and observe for their occurrence.	E. Problem areas <ul style="list-style-type: none"> <li>1. Time for everyone/use volunteers</li> <li>2. Lower ability residents can be frustrating, progress is slow</li> <li>3. Avoid "visiting" stick to the goals</li> <li>4. Resident may prefer to socializing with others--move into group</li> <li>5. Jealousy of residents not receiving</li> </ul> F. Types of activities <ul style="list-style-type: none"> <li>1. Most all previously discussed</li> <li>2. Select one that will meet needs</li> <li>3. For low level functioning               <ul style="list-style-type: none"> <li>a. Sensory stimulating- touch, smell, talking, environmental stimulation</li> </ul> </li> <li>4. Reality orientation</li> <li>5. Growing plants, reading, letter writing, simple games, discussion, music</li> <li>6. Develop relative to goals for each resident</li> </ul>	Lecture/discussion
4.16.4 List the types of activities that can be used.	XVIII. Resident motivation and participation <ul style="list-style-type: none"> <li>A. Definition - force from within a person, cannot be provided by someone else. Based on desire to fulfill own needs.</li> <li>B. Factors that affect motivation (need-drive-goal)               <ul style="list-style-type: none"> <li>1. Needs (Maslow)</li> <li>2. Myths and misconceptions</li> <li>3. Basic losses (contribute to lack of fulfillment)                   <ul style="list-style-type: none"> <li>a. Identity</li> <li>b. Independence</li> <li>c. Life purpose</li> </ul> </li> </ul> </li> </ul>	151 150
4.17 Explore factors that effect a resident's motivation to participate in an activity program.		

## ACTIVITY COORDINATOR ORIENTATION COURSE

Unit 4: This unit addresses the activity program. The learner will be exposed to various types of activities appropriate for residents in long term care facilities. Emphasis is placed on the appropriateness and execution of various activities for residents with special problems. Therapeutic modalities, activity adaptations, and activity analysis are discussed. Steps of activity implementation are also defined.

OBJECTIVE	CONTENT	METHOD
4.17.1 Identify the A.C.'s role with regard to working with a resident who refuses to participate in activities.	<p>d. Meaningful interpersonal relationships</p> <p>e. Privacy</p> <p>4. Fears</p> <ul style="list-style-type: none"><li>a. Death</li><li>b. Uselessness</li><li>c. Loneliness</li></ul> <p>5. A.C. attitudes and approaches</p> <p>6. External forces</p> <p>C. Factors that influence participation</p> <ul style="list-style-type: none"><li>1. Interests/desires of residents</li><li>2. Internal factors</li></ul> <ul style="list-style-type: none"><li>a. Contribute to self-esteem</li><li>b. Achievement</li><li>c. Success</li><li>d. Responsibility</li><li>e. Status/faction</li></ul> <p>3. Adaptation to meet special needs</p> <p>4. Time frame of activities</p> <p>5. Publicity</p> <p>D. Positive ways to affect motivation</p> <ul style="list-style-type: none"><li>1. Make first contacts count</li><li>2. Respect personal dignity</li><li>3. Inspire respect</li><li>4. Make haste slowly</li><li>5. Match activity to individual needs and physical/mental condition(s)</li></ul> <p>E. Refusal to participate</p> <ul style="list-style-type: none"><li>1. Resident right</li><li>2. A.C. responsibility</li></ul> <ul style="list-style-type: none"><li>a. Reassess needs of resident</li><li>b. Re-examine calendar</li><li>c. Offer assistance/support with any independent activities</li></ul>	152

ACTIVITY COORDINATOR ORIENTATION COURSE

Unit 4: This unit addresses the activity program. The learner will be exposed to various types of activities appropriate Page 21 for residents in long term care facilities. Emphasis is placed on the appropriateness and execution of various activities for residents with special problems. Therapeutic modalities, activity adaptations, and activity analysis are discussed. Steps of activity implementation are also defined.

OBJECTIVE	CONTENT	METHOD
4.18 Identify specific activities that are used therapeutically with residents to effect a positive change. 4.18.1 Discuss the use of reality orientation.	<p>XIX. Therapeutic activities</p> <p>A. Reality orientation (RO)</p> <ol style="list-style-type: none"> <li>1. Definition</li> <li>2. Purpose - utilized with residents with disorientation problems on 1-1 basis or in small groups</li> <li>3. Steps           <ol style="list-style-type: none"> <li>a. Welcome--greet each resident</li> <li>b. Ask residents first and last names, help, reinforce</li> <li>c. Ask each where they are at</li> <li>d. Community?</li> <li>e. Year?</li> <li>f. Date?</li> <li>g. Yesterday was?</li> <li>h. Today is?               <ol style="list-style-type: none"> <li>i. The weather is?</li> <li>j. Next holiday?</li> <li>k. Therapist's name?</li> </ol> </li> <li>4. Helpful hints               <ol style="list-style-type: none"> <li>a. Use RO board, pictures, props, games</li> <li>b. Hold class daily in AM</li> <li>c. Use semi-circle arrangement</li> <li>d. Conduct class in a quiet room</li> <li>e. Use touch, eye contact and praise during session</li> <li>f. Be patient <u>not</u> patronizing</li> </ol> </li> </ol> </li> </ol>

## ACTIVITY COORDINATOR ORIENTATION COURSE

Unit 4: This unit addresses the activity program. The learner will be exposed to various types of activities appropriate for residents in long term care facilities. Emphasis is placed on the appropriateness and execution of various activities for residents with special problems. Therapeutic modalities, activity adaptations, and activity analysis are discussed. Steps of activity implementation are also defined.

OBJECTIVE	CONTENT	METHOD
	<p>5. Where to use RO</p> <ul style="list-style-type: none"> <li>a. Reversible delirium, dementias</li> <li>b. Forgetful - short term periods</li> <li>c. Morbid fantasies - upsetting, stressful</li> <li>d. Is not appropriate for Alzheimer's</li> </ul>	
4.18.2 Discuss the use of remotivation.	<p>B. Remotivation</p> <ol style="list-style-type: none"> <li>1. Definition</li> <li>2. Purpose--stimulate thinking, create outside interests and provide group interaction</li> <li>3. The five step technique           <ol style="list-style-type: none"> <li>a. Climate of acceptance</li> <li>b. Bridge to reality</li> <li>c. World we live in</li> <li>d. Work of the world</li> <li>e. Climate of appreciation</li> </ol> </li> <li>4. Helpful hints           <ol style="list-style-type: none"> <li>a. Group of 8-15 residents</li> <li>b. Use poems, pictures, songs, props</li> <li>c. Prepare "folder" on each topic               <ol style="list-style-type: none"> <li>1) Use materials</li> <li>2) Cue cards</li> <li>3) Questions</li> </ol> </li> </ol> </li> </ol>	
4.18.3 Discuss the use of sensory stimulation.	<p>C. Sensory stimulation</p> <ol style="list-style-type: none"> <li>1. Definition</li> <li>2. Purpose--use of senses to orient person to environment</li> <li>3. Prepare sensory stimulation cart/box with a variety of objects, etc.           <ol style="list-style-type: none"> <li>a. Touch</li> <li>b. Sight</li> <li>c. Smell</li> </ol> </li> </ol>	<span style="font-size: 2em;">157</span> <span style="font-size: 1em;">453</span>

ACTIVITY COORDINATOR ORIENTATION COURSE

Unit 4: This unit addresses the activity program. The learner will be exposed to various types of activities appropriate for residents in long term care facilities. Emphasis is placed on the appropriateness and execution of various activities for residents with special problems. Therapeutic modalities, activity adaptations, and activity analysis are discussed. Steps of activity implementation are also defined.

OBJECTIVE	CONTENT	METHOD
4.18.4 Discuss the use of validation therapy.	<ul style="list-style-type: none"> <li>d. Hear</li> <li>e. Taste</li> <li>4. Helpful hints           <ul style="list-style-type: none"> <li>a. Use items appropriate to age groups (long term recall to associate with)</li> <li>b. Keep in mind physical/mental abilities/limitations of residents (i.e., poor circulation, poor touch)</li> </ul> </li> <li>D. Validation therapy           <ul style="list-style-type: none"> <li>1. Definition</li> <li>2. Purpose--utilize empathy to "tune into" the confused resident. Listen to what the person is feeling, then acknowledge and accept</li> <li>3. Technique               <ul style="list-style-type: none"> <li>a. Help person put his/her feelings into words</li> <li>b. Help resolve past and justify past roles</li> <li>c. Listen carefully--feelings may be expressed through fantasy</li> <li>d. Accept resident's decision to live in the past</li> <li>e. Observe "hymns", non-verbal communications for feelings</li> <li>f. Treat in age appropriate, responsible manner</li> <li>g. Remember importance of a smile and friendly tone of voice</li> </ul> </li> <li>E. Life review (reminiscing covered in group discussion)               <ul style="list-style-type: none"> <li>1. Definition</li> <li>2. Purpose--validate past life experiences</li> </ul> </li> </ul> </li> </ul>	159
4.18.5 Discuss the use of life review.		

## ACTIVITY COORDINATOR ORIENTATION COURSE

Unit 4: This unit addresses the activity program. The learner will be exposed to various types of activities appropriate for residents in long term care facilities. Emphasis is placed on the appropriateness and execution of various activities for residents with special problems. Therapeutic modalities, activity adaptations, and activity analysis are discussed. Steps of activity implementation are also defined.

OBJECTIVE	CONTENT	METHOD
4.18.6 Identify the requirements of a pet therapy program.	<p>3. Procedures</p> <ul style="list-style-type: none"> <li>a. 5-10 residents in group, or 1-1 basis</li> <li>b. Meet 2xweek, 1/2 hr-hr length</li> <li>c. Each session reviews a specific time of resident's life - person, event or era</li> <li>d. Identify positive features of recalled experience</li> <li>e. Present event in chronological sequence - begin with childhood experiences and end with present time</li> </ul> <p>F. Pet therapy</p> <ul style="list-style-type: none"> <li>1. State regulations</li> <li>2. Record keeping</li> </ul> <p>a. Letter of request to Department of Health</p> <p>b. Department's response--permission granted</p> <p>c. Facility policy and procedures regarding pet therapy</p> <p>d. Veterinary checkups and vaccination records</p> <p>e. List of all residents who will not have contact with pets (choice, health, etc.)</p> <p>3. Program concerns</p> <ul style="list-style-type: none"> <li>a. Animal traits</li> <li>b. Sanitation, infection control</li> <li>c. Rest breaks for pet</li> <li>d. Care, feeding, etc. for pet</li> <li>e. Cost</li> </ul>	
4.18.7 Investigate the possible year round opportunities involving horticulture therapy.	<p>G. Horticulture therapy</p> <ul style="list-style-type: none"> <li>1. Definition</li> <li>2. Purposes</li> </ul>	161 160

## ACTIVITY COORDINATOR ORIENTATION COURSE

Unit 4: This unit addresses the activity program. The learner will be exposed to various types of activities appropriate for residents in long term care facilities. Emphasis is placed on the appropriateness and execution of various activities for residents with special problems. Therapeutic modalities, activity adaptations, and activity analysis are discussed. Steps of activity implementation are also defined.

OBJECTIVE	CONTENT	METHOD
4.18.8 Describe how arts can be used therapeutically to benefit the resident.	<p>H. Therapeutic arts</p> <ul style="list-style-type: none"> <li>1. Dance           <ul style="list-style-type: none"> <li>a. Benefits               <ul style="list-style-type: none"> <li>1) Exercise</li> <li>2) Creative expression</li> <li>3) Tension/stress reliever</li> <li>4) Coordination, balance, ROM</li> <li>5) Social interaction</li> </ul> </li> <li>b. Adapted to wheelchair</li> <li>c. Adapted for most special needs</li> </ul> </li> <li>2. Art           <ul style="list-style-type: none"> <li>a. Benefits               <ul style="list-style-type: none"> <li>1) Creative expression</li> <li>2) Release of feelings/emotions</li> </ul> </li> <li>b. Use for anger therapy</li> <li>c. Use to relate hidden feelings (sexual abuse, etc.)</li> </ul> </li> <li>3. Poetry/drama           <ul style="list-style-type: none"> <li>a. Benefits               <ul style="list-style-type: none"> <li>1) Creative expression</li> <li>2) Release feelings/emotions</li> </ul> </li> <li>b. Use with withdrawn, shy</li> </ul> </li> </ul>	162 163

## ACTIVITY COORDINATOR ORIENTATION COURSE

## ACTIVITY COORDINATOR ORIENTATION COURSE

**Unit 4:** This unit addresses the activity program. The learner will be exposed to various types of activities appropriate for residents in long term care facilities. Emphasis is placed on the appropriateness and execution of various activities for residents with special problems. Therapeutic modalities, activity adaptations, and activity analysis are discussed. Steps of activity implementation are also defined.

OBJECTIVE	CONTENT	METHOD
<p>4.25 Examine the environmental conditions that must be monitored by the AC for successful activity implementation.</p>	<p>C. Equipment</p> <ul style="list-style-type: none"> <li>1. Inservice personnel to usage/operation</li> <li>2. Preventive maintenance           <ul style="list-style-type: none"> <li>a. Examine condition prior to each use</li> <li>b. 178

## ACTIVITY COORDINATOR ORIENTATION COURSE

### Activity 1.1

#### Objectives for the Project:

1. Assess the residents needs within the facility in which you work and determine the type of new program or the revision of an old program that would be beneficial for the residents in the facility.
2. Make a step-by-step plan to develop or revise the selected program.
3. Describe your position within the facility (full-time or volunteer) and explain why the project fits your job description.
4. Share your project with others in the class by preparing a written report and giving an oral report on the project.

#### Selection of the Project:

##### Select a project that:

1. Is interesting to you.
2. Helps you learn a new skill (use the project to increase your abilities)
3. Is compatible with your job in the facility.
4. Will be an ongoing regular event for the residents in the facility
5. You can easily show how the project will meet some important needs within the facility.

#### Examples of projects you might select:

1. Set up and carry out a volunteer program, develop the job description, explain how you will recruit, develop an orientation, training program and method for special recognition of the work they do.
2. Develop an inservice activity for the staff.
3. Plan a regularly scheduled program such as an exercise program, a remotivational program or reality orientation group.
4. Organize an on-going special interest group such as a reading club, adult education class, etc.
5. Plan for and carry out a special event such as a monthly birthday parties, family nights, trips, etc. (This is probably more important for volunteers).

#### Project Schedule:

1. Select two potential projects by the second class session, submitting a brief explanation of each, in writing, to the instructor. Instructor will have final approval.
2. If for some reason you want to change your project after this session, you must get the new project approved by the instructor.
3. By the fifth session, submit an outline of the project to the instructor. (See below.) Make a copy of the outline for yourself.
4. Make an appointment to meet with the instructor individually to go over the project.
5. Make the changes you and the instructor agree on by the sixth class period.
6. Write the final report and turn it in the 8th class session, upon completion of your oral report.

**Suggested Outline Format:**

- I. Introduction
  - A. Project name and description
  - B. Goals that project will meet
    - 1.
    - 2.
    - Etc.
- II. Resources that will be needed to initiate the project
  - A. Staff, volunteers, residents, etc.
  - B. Facilities, areas, rooms, etc.
  - C. Equipment and costs
  - D. Supplies and costs
  - E. Other: transportation, etc.
- III. Plan to initiate the program
  - A. Administrative and department approvals
  - B. Outline of advance preparations
  - C. Outline of schedule for day of event
  - D. Alternative/backup plan
- IV. Evaluation of the project
  - A. Evaluation questionnaire (minimum of 7 questions, pertinent to project)
  - B.

**Suggested Format for Written and Oral Report**

- 1. Description of the project, what it is, how it meets the organizational goals, how it complements your job.
- 2. List persons and other resources you used to assess the project needs, plan the project, and implement the project.
- 3. Describe how the project will be/was implemented, residents that will be/were selected to participate, why they will be/were selected, the expected results of the project, and changes that will be made to improve the activity.
- 4. Summarize by describing what you have learned from the project, what changes you would make next time. Make a copy, PRIOR to handing in, NOTHING WILL BE RETURNED.

**Evaluation of the Project**

- 1. The student must be able to implement the project in the facility in which they work.
- 2. The project must represent an entirely new type of activity, or the revisions that are made must clearly make the project different.
- 3. The project must be complete and reflect the capabilities of the student.
- 4. The project must be turned in on time, no later than the date of the final class. If an extension is approved, the project must be turned in within thirty days of the last class. You must get the extension from the instructor BEFORE the final class.

## ACTIVITY COORDINATOR ORIENTATION COURSE

### Class Activity 1.2

#### PATIENT/RESIDENT RIGHTS

**Objective:** Review some situations that have implications for resident rights and describe how the situations affect resident rights.

**Directions:** Divide the class into dyads or tryads. Assign a different situation to each group. Instruct the small groups to discuss the situation and determine if the patient/residents rights have been violated, how they have been violated and what could have been said or done to protect the rights.

Give the groups 15-20 minutes to discuss the situation, then have them report findings to the class.

- A. Two nursing assistants are in a crowded lobby on the way to the employees' break area for coffee. Jane says, "Oh Sandy, you should have heard what that cute Mrs. Maple said this morning. She told Bill that if she was five years younger, she could show him a thing or two. Considering the advanced state of her Chronic Organic brain disease, it is amazing that she could say that."
- B. Mrs. Elm gets a bit anxious during the hour preceding dinner. If someone spends five or ten minutes walking and talking with her, she usually calms down. A new staff member, who noticed that she was walking into unsupervised areas of the nursing unit, decided to have her sit in a geriatric wheelchair with the tray in place until dinner was served.
- C. Gail told Mr. Pine that she would put his letter into an envelope and mail it for him. However, when Gail looked at the letter, she say that it rambled and made no sense, so she threw it away.
- D. Mrs. Sequoia is a fairly alert lady with an extremely difficult personality. She wants a great deal of information about any medication she takes, but explaining the medication is a time-consuming problem for the nurse. The nurses found that a simple solution is to put the medication into Mrs. Sequoia's apple sauce to avoid the time-consuming questions.
- E. Mrs. Redwood seems to worry constantly about money and wants to know how much she has in her trust account and how much she is paying for services and care. It was decided that a simple response was to say that it is against the rules for anyone by the finance office manager to tell her information. He is a very busy man with limited time for such things, so she can see him only once a month or so.
- F. Mrs. Apple is mentally impaired and quite passively accepts care and direction. When she is wet, the staff will often put a new diaper on her while in the dayroom as she is so heavy to move back and forth to her room.

- G. Shortly after her stroke, Mrs. Palm's doctor had her assessed by a physical therapist and an occupational therapist. She became involved in rehabilitation programs and at the end of the month received a bill for these services. She had not realized that there would be a separate bill for these therapies and that these were not a part of the regularly provided services of the nursing home.
- H. Mr. Oak's old friend and past neighbor comes to visit occasionally. After each visit, she stops at the nurses' desk to get first-hand reports from the nurse about how Mr. Oak is doing. To save time, the nurse gives her the chart to read so that she can finish taking care of doctor's orders.
- I. Mrs. Birch went to visit her husband at Cloud Nine Nursing Home and found that he was not in his room, and his name was no longer on the door. After a period of confusion and panic (by the nurses), one of the aides reported that Mr. Birch had been moved to the other wing where he would receive more supervision.
- J. Because Mrs. Pear is aphasic, the activity director doesn't bother to ask her if she would like to join an activity; she just brings her along because she figured it would get her out of her room.

## ACTIVITY COORDINATOR ORIENTATION COURSE

### Homework Activity 1.3

#### JOB DESCRIPTION

Objective: Review job descriptions for activity coordinators and identify the necessary components of the job description.

Directions: Obtain and activity coordinator's job description for the facility in which you work, read it carefully and answer the following questions. Bring your answers to class and be prepared to discuss them with the class.

What are the qualifications for the job? Educational preparation? Past work experience?

What are the requirements for continuing in the job? Continuing education? Inservice?

What tasks are done routinely by the activity coordinator in your facility?

What tasks are done periodically?

To whom does the activity coordinator report?

How does one know if the activity coordinator is doing their job?

To whom is the activity coordinator responsible. What are the responsibilities to the resident? The resident's family? Others on the care team? To whom else are they responsible?

ACTIVITY COORDINATOR ORIENTATION COURSE

Homework Activity 1.4

CONSULTANTS

Objective: Describe the role of consultants and explain how they can assist the activity coordinator in developing more effective programs.

Directions: This project may be assigned to each student or to one or more students to complete and report on in class. Select a resident in the facility in which you are working that has been seen by a consultant (any of those discussed in class) and complete the following information regarding the contributions made by the consultant.

Why was the resident referred to a consultant?

How did the problem for which the resident was referred interfere with the daily living activities of the resident? Did it also have some affect on his/her participation in the activity program?

What recommendations were made by the consultant?

Why did the consultant make these recommendations?

When the suggestions were implemented, what affect did they have on the resident's performance?

Why?

When and how would you use the services of this consultant again?

## ACTIVITY COORDINATOR ORIENTATION COURSE

### Homework Activity 1.5

#### PROGRAM EVALUATION

Objective: Interview the facility personnel regarding feelings about the activity program.

Directions: Make an appointment with: 1) the Director of Nurses, and 2) the facility administrator in the facility in which you work. Explain to them that you want to interview them for a class project regarding their perceptions about the activity program; what the goals for the program should be and how what they feel the residents should be getting from the program. Use the following questions as a guide for the interview; record the answers below and be prepared to discuss them in class.

##### Director of Nurses Responses

How do you feel the activity program benefits the residents?

What should the goals of the activity program be for the types of residents in this facility?

What types of activities do you believe will help us reach these goals?

##### Facility Administrator

How would you describe the current activity program? Why do you feel the facility needs an activity program?

What goals and projects do you feel are the most important ones for the program?

Other comments!

ACTIVITY COORDINATOR ORIENTATION COURSE

Homework Activity 2.1

ACTIVITY PROGRAM GOALS

Objective: Review and revise the activity program goals in your facility.

List the general goals in the facility in which you work.

Which of these general goals relate to the activity program?

If there are already goals for the activity program, list them below. Compare the program goals with the facility general goals. If there are not activity program goals, make a list of general things the activity program could do to achieve the institutional goals.

Review the activities above or the activity program goals from your facility and revise them to meet the following criteria.

1. General in terms of what is to be achieved.
2. Written in behavioral terms so one can see whether the goal has been achieved.
3. Compatible and complimentary to the overall institutional goals.
4. Written in terms of the residents. E.G., encourage residents to more clearly express themselves by interacting with others in the group.

Write and revise two general program goals and submit to your instructor for critique.

1.

2.

ACTIVITY COORDINATOR ORIENTATION COURSE

Classroom Activity 2.2

DECISION MAKING

Objective: Describe the decision-making process of a fairly typical day for an activity coordinator.

Materials needed: Envelopes with seven pieces of paper with each of the following tasks written on one slip of paper.

1. Volunteer waiting to see you.
2. Activity room not ready for afternoon activity.
3. Administrator has left a message for you to report to his/her office.
4. Kitchen has called to say they have no cookies ready for scheduled activity.
5. One volunteer is very upset over restraints used on a resident and wants to discuss it.
6. All of the residents are still in their rooms.
7. John, a resident, has asked you to come to his room and discuss his care.

Group Directions: "You are an activity coordinator in a care facility. You have an activity scheduled for 1:30 p.m. You arrive at work 15 minutes late 1:45 p.m. As you enter you find there are seven things wrong that need to be done. These are written on the slips of paper in your envelope. As a group, determine what you will do first, second, etc."

Directions: Divide the group into triads. Have them select a reporter. Set the situation for the entire group, then give each triad an envelope with seven slips of paper; each slip of paper will have a task that needs to be done by the coordinator. The triads should read and discuss each task on the papers, then put them in the order in which they feel the tasks should be done. Assure the groups there is no right or wrong order. Give the triads 20 minutes, then ask the reporter to list the tasks in the order the group agreed they should be done.

Follow with a general discussion. A suggested solution might be: Greet volunteers and if they are well oriented, ask them to start setting up activity room and getting residents up. Either have a volunteer go to the store for cookies or call the kitchen for a substitute. Call administrator and ask to see him/her in 20 minutes. Have nursing staff explain to volunteer about restraints, etc.

ACTIVITY COORDINATOR ORIENTATION COURSE

Homework Activity 2.3

DELEGATING RESPONSIBILITY

Objective: Analyze the tasks of the activity department and determine which ones can be delegates and to whom they should be delegated.

Directions: Make a list of the tasks that you must do this week/next week. (If you are not working, talk to a student who is and ask them to share their list of tasks.) Every student should then work alone and list the task, determine which you should do yourself, which you can delegate and to whom you can delegate the task.

<u>Task</u>	<u>Who Will Do The Task</u>	<u>Why</u>
-------------	-----------------------------	------------

ACTIVITY COORDINATOR ORIENTATION COURSE

Homework Activity 2.4

MONTHLY CALENDAR

Objective: Review the monthly activity calendar in your facility and determine how the scheduled activities meet the total program objectives.

If your facility has a monthly activity calendar, use it to complete the attached calendar or attach a copy of it to the homework activity.

List the various types of activities that have been scheduled for the month.

Take the objectives listed in the 2.1 homework activity assignment and describe how the scheduled activities help meet these general program goals.

Are the scheduled activities of the right type, kind to meet the goals?

If no, what other activities might be scheduled to better meet the goals?  
When should they be scheduled?

Submit the assignment to your instructor for critique.

ACTIVITY COORDINATOR ORIENTATION PROGRAM

Classroom Activity 2.5  
Page 1 of 2

COMMUNICATIONS

Objective: Identify the various aspects of successful communications: verbal, nonverbal, listening, and questioning.

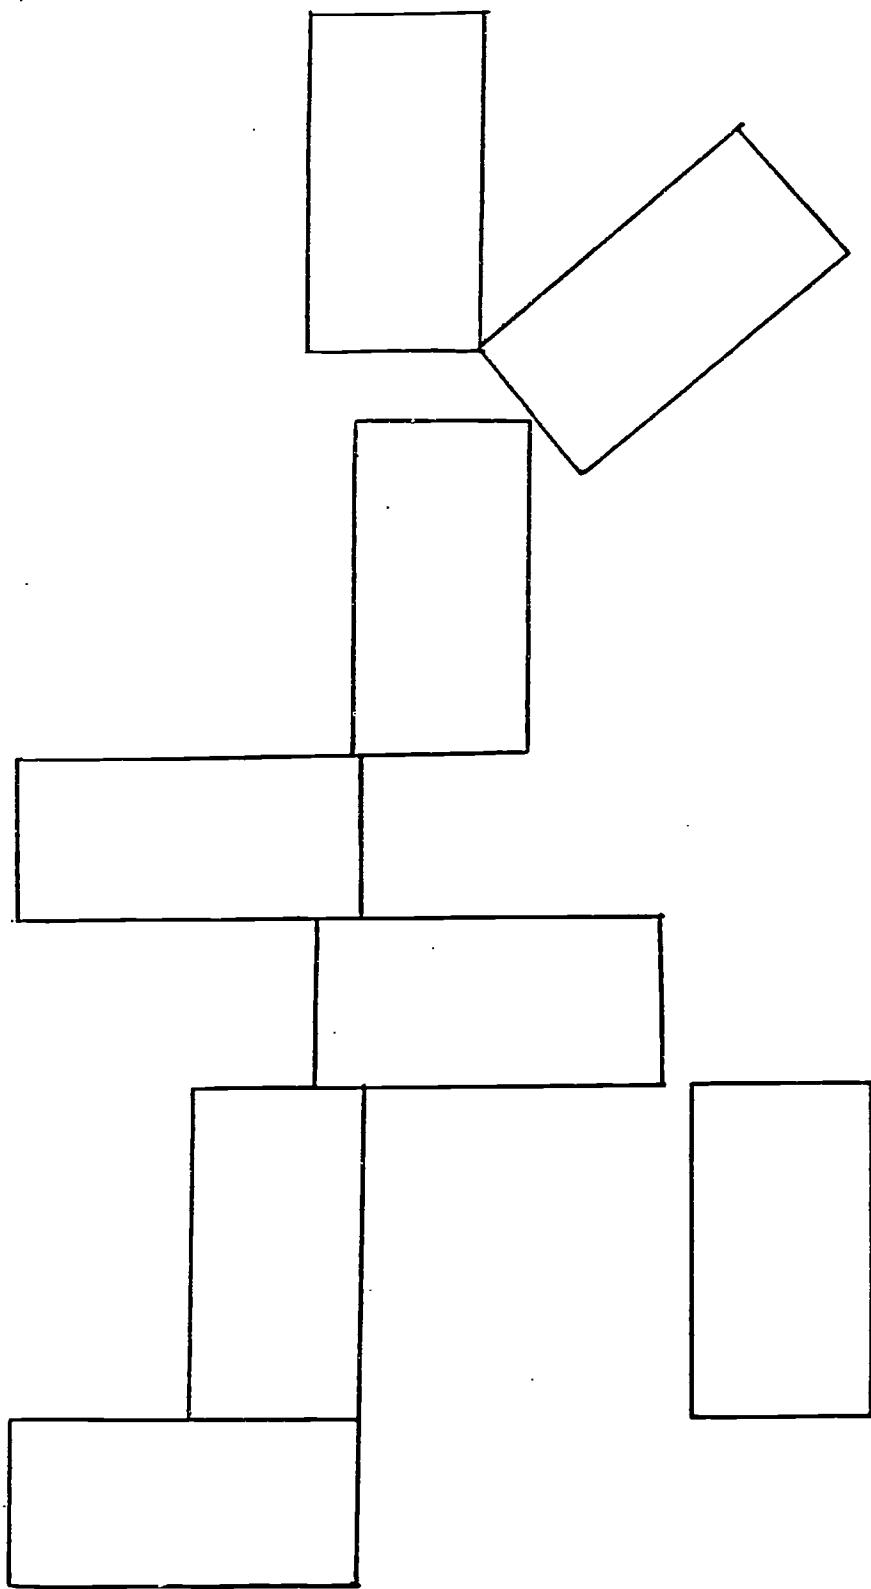

Purpose of Activity: Dominos is an activity designed to demonstrate that communication is a two-way process which includes the active participation of the sender and the receiver. It helps students see that they need to actively involve whomever they are communicating with, that there must be opportunities to ask questions and clarify instructions.

Equipment: Enough portable chairs for all participants. The chairs will be arranged in groups of threes, two will be placed back to back and the third in a position to observe the two other participants. One person needs a clean sheet of paper and a book, magazine wo write on, as well as a pencil. You will also need one copy of the domino design for each group of triads.

Directions: Divide the group into triads. Each group will select a person to act as the activity coordinator (communication sender), one to act as the volunteer (receiver), and one to observe. The activity coordinator and volunteer are placed in the chairs that are back to back, the observer in the chair facing these two. The person acting as the volunteer is to have a clean sheet of paper and pencil. After all are situated, give the person acting as the activity coordinator the domino design. Instruct the whole group: the activity coordinator is to describe the design to the volunteer and the volunteer is to reproduce the design on the paper. The only person who can talk is the activity coordinator. The observer and the volunteer may not talk once the domino sheet has been distributed.

Follow up discussion: After all triads have completed the project, let each person describe their feelings about the communication role they were playing. Emphasize the need for nonverbal communications, the opportunity to ask questions, and clarify as communication proceeds.

DOMINO PATTERN SHEET

COMMUNICATIONS

Listening Quiz

The following checklist, while by no means complete, can help you evaluate your listening powers. Try to answer honestly.

- | Yes  | No |
|--|----|
|  |    |
| 1. When an individual is speaking to you, do you face him/her to make sure you can hear him/her?         |    |
| 2. Do you watch the speaker closely such as observing actions and gestures as well as listen to him/her? |    |
| 3. Do you rely on your first impression in deciding whether or not he/she is worth hearing?              |    |
| 4. Do you probe for ideas as well as words?  |    |
| 5. Are you aware of your own prejudices and able to make allowances for it?                              |    |
| 6. Do you interrupt if you hear a statement you believe to be wrong?                                     |    |
| 7. Do you make sure, before answering, that you completely understand the other person's point of view?  |    |
| 8. Do you try to have the last word?   |    |
| 9. Do you try to evaluate the logic and credibility of what you hear?                                    |    |
| 10. Do you use your friends as sounding boards for your own opinions?                                    |    |

This will be discussed in class during listening materials.  
Used by permission of OCCA.

ACTIVITY COORDINATOR ORIENTATION COURSE

Activity 2.6  
Page 2 of 2

Questions 1, 2, 4, 5, 7, 9 should be answered YES.

Take 10 off for each one you missed and subtract total missed from 100.  
Check your total score against code:

- |          |                         |
|----------|-------------------------|
| 80 - 100 | Excellent               |
| 60 - 79  | Good, but could improve |
| 40 - 59  | Poor                    |
| 0 - 39   | Need we say more        |

ASSESSING RESIDENTS ACTIVITY NEEDS

Objective: Select a resident in your facility and assess their activity needs by examining their physical, social, and emotional status.

Directions: Select a resident in your facility and complete the attached assessment forms. When they are completed, hand them into the instructor for critique. These assessments will be used to develop a component care plan in next activity.

### ACTIVITY ASSESSMENT

Name:

Date of Birth:

Age:

Address:

Sex:

Race:

Marital Status:

Former Occupation:

Has minister been notified of patient's admission?

Was patient active in church activities?

Education background:

Living arrangements prior to admission:

Reason for admission:

Problems at home which relate to patient:

Names of living children:

Names of living brothers and sisters:

Will family visit?

Will family member take patient out for visits or special occasions:

If yes, who?

Does patient read? Enjoy being read to? What type of books?

Does patient enjoy TV? Favorite programs:

Does patient write? Play musical instrument? Card games?

Does patient enjoy listening to music? What type?

Can patient crochet? Knit? Use sewing machine? Woodcraft?

Gardening? Raising flowers? Sports on TV? Favorite?

Does patient speak foreign language?

What organizations does patient belong to?

Smoking habits? (None, cigarettes, cigars, snuff)  
Kind? How much daily?

197

ACTIVITY COORDINATOR ORIENTATION COURSE

Homework Activity 2.8

DEFINING RESIDENT PROBLEMS

Objective; Using the assessment completed in last homework activity, identify problems the resident may have based on the assessment.

Directions: Identify the problems by defining them below.

Problem List

Problem	How It Affects the Resident
---------	-----------------------------

ACTIVITY COORDINATOR ORIENTATION COURSE

Homework Activity 2.9  
Page 1 of 2 pages

EVALUATING OBJECTIVES

Objective: Evaluate and revise resident objectives.

Directions: Identify from the following list the behavioral objectives which meet the following criteria:

Performance or action (what will the resident be doing)  
Conditions (what conditions are given or imposed)  
Criteria (How is success measured or recognized)

Mark with an "X" if it is a behavioral objective.

- 1. The resident will understand and appreciate the importance of brushing his teeth.
- 2. The resident will identify the color blue when presented with three different objects of different colors (red, yellow, blue) by pointing to the blue object.
- 3. The resident will know the significance of the fire alarm.
- 4. The resident will differentiate between his right shoe and his left shoe.
- 5. At the end of the day, the resident will be able to construct a leather billfold.
- 6. After reading "Station in Space" the resident will write the name of the job he thinks is most important to the operation of the space station.
- 7. The resident will attempt 20 sit-ups in 30 seconds, with a fellow resident holding his ankles; proficiency will be at least 15.
- 8. Given three columns of figures, the resident will add them up.

ACTIVITY COORDINATOR ORIENTATION COURSE

Activity 2.9  
Page 2 of 2 pages

Directions: Below are five poorly stated objectives. Rewrite each one so that it meets the three criteria for a behavioral objective.

Three essential parts: action or performance (what the resident will be doing)  
conditions (what conditions are given)  
criteria (how is success measured or recognized)

1. Lois will be on time for breakfast.
  
  
  
  
  
  
2. Dan will realize it is wrong to say obscene things to girls.
  
  
  
  
  
  
3. John will loose weight.
  
  
  
  
  
  
4. Kathy will quit sucking her thumb.
  
  
  
  
  
  
5. Laverne will wear his football helmet.

ACTIVITY COORDINATOR ORIENTATION COURSE

Classroom Activity 2.10

WRITING RESIDENT GOALS AND OBJECTIVES

Objective: Practice writing resident goals and objectives.

Directions: Divide the class into small groups (3-4). Assign each small group one of the situations below and ask them to define the problem and write goals for the resident in their assigned situation. Have the groups select reporters for the following class discussion. The groups can use space below to list problems and goals.

Situation 1: The resident packs their suitcase every afternoon and "waits" for the family to come and take them home.

Situation 2: The resident continuously spits on the floor beside their chair during activities.

Situation 3: The resident has Parkinson's Disease and shakes badly, and has difficulty completing tasks.

Situation 4: The resident will not talk to other residents. The resident will talk to staff when they approach them.

Situation 5: The resident talks constantly to a "non-existent" friend.

Problem	Goal

Group Discussion: Have reporters share the group goals; ask for other suggestions.

ACTIVITY COORDINATOR ORIENTATION COURSE

Homework Activity 2.11  
Page 1 of 5 pages

THE COMPLETE CARE PLAN

Objective: Using what you know about assessment, problem identification, development of resident objectives and approaches, take one of the attached case studies and develop a care plan.

Directions: The instructor will assign one of the attached case studies or you may use the resident you assessed in previous lesson for you to practice developing care plans. Use the attached form or the form your facility uses for care plans and complete all of the items required. Hand it in for critique by your instructor.

## ACTIVITY COORDINATOR ORIENTATION COURSE

Activity 2.11  
Page 2 of 5

### CASE STUDY FOR OVERALL CARE PLAN #1

#### Background

Sally Sample, a 72 year old female admitted 8/10/90 to an Intermediate Care Facility. She sustained a fall at her home 7/31/90 and was hospitalized 10 days for open reduction of a comminuted intertrochanteric fracture of the right hip. PT began in hospital, she is able to stand and bear weight with assistance of one, and non-ambulatory at present.

#### Diagnoses

Primary: Intertrochanteric fracture right hip

Secondary: Diabetes, hypertension, OBS, degenerative joint disease

#### Medications, Diet, Treatment Orders

Tolinase 250 mg daily

Aspirin gr. X TID

Unicap 1 daily

Dyazide 1 cap daily

Dulcolax Suppository PRN

1800 Cal. ADA NAS diet

Clinitest daily 4:00 p.m. (negative day of admission)

FBS monthly (last one 8/7/90 was 194)

Remove steri strips 9/10/90

B/P and weight weekly (Thursday) (on admission BP 176/86, weight 132 lbs )

Ambulate with walker and weight bearing as tolerated QID with assistance

#### Rehabilitation Potential

Excellent following rehabilitation program

#### Nursing Needs

- Foley catheter, continent of bowel
- Dependent on staff to assist with ADLs, feeds self
- Forgetful - disoriented to time and place
- Non-ambulatory secondary to fractured hip - transfers with assistance
- Needs PT
- Safety secondary to forgetfulness - attempts to transfer self
- Arthritic pain in knees
- Diabetes control
- Hypertension control

CASE STUDY FOR OVERALL CARE PLAN #2

Mrs. Sanka Olson, a 78 year old white female was readmitted to Folgers Care Center. She had been hospitalized for 4 weeks with a fractured left hip. She is also a diabetic.

Birthday	30-3-12	Hgb	13.5 gm/100 ml
Height	5'5"	Glucose	130 mg/100m day before
Weight	160 (consistant for 3 years)	admitted to nursing home	
B.P.	130/80		

Medications and treatments - from transfer sheet signed by physician

Diet - 1500 calorie ADA Diabetic  
Tolbutamide (Orinase) 250 mg. daily  
MOM 30 cc HS prn  
Diazepam (valium 10 mg. B.I.D.)  
Bisacodyl Suppository (Dulcolax) as needed  
Acetaminophen 325 mg II PRN discomfort  
Foley Catheter (#18 with 5 cc Bag) may remove  
Foley irrigation PRN  
Up in chair  
To be seen by Physical Therapist - to begin weight bearing  
Clinitest daily

Mrs. Olson is a widow of 7 years, having lived alone 5 years after her husband's death. She has resided 2 years in the facility prior to her hip fracture. Mrs. Olson has four children, daughter Doris Maxwell, lives in Seaside, Conn., writes regularly and sends frequent care packages. Daughter Sarah Hills lives in town but visits irregularly. Sons Roger and Richard live in town and visit approximately monthly. Their respective wives, Glenna and Linda, each visit about twice weekly. They often bring home-prepared food. Mrs. Olson often identifies them as Doris and Sarah, the natural daughters. She is however aware of who she is and where she is.

Mrs. Olson eats all the food served, including the bedtime snack. She dislikes fish and liver (know from previous admission).

Mrs. Olson gets up in the chair for each meal. She transfers by pivoting on the right foot, with the assistance of two people. Weight bearing has not yet been initiated though the PT has been notified. She does request that the catheter be removed, but does not pull at it. The operative area on the left thigh is healed. She feeds herself, and does some ADL's--hand/face washing, combs her hair and brushes her teeth.

On the readmission notes a reddened area over the coccyx 3 cm by 3 cm was present. The skin was intact. Mrs. Olson does complain about constipation. The transfer sheet does not identify this as a problem except for the physician's orders.

From her previous admission it is known she attended Tenderleaf Tech and taught country school before her marriage. During her previous stay at Folgers she was active in "The Back Room Sitting Group" as well as the Resident Council. She participated in most scheduled activities.

Prior to her initial admission she was active in her church and women's group in which she served as secretary. She listed gardening and crocheting as hobbies.

ACTIVITY COORDINATOR ORIENTATION COURSE

Activity 2.12

Objective: Using one of cases attached, develop an activity component care plan for a resident.

Directions: Select one of the following cases and develop a component care plan. Use the forms provided for the plan or the form you will be using in the facility in which you are working.

ACTIVITY COORDINATOR ORIENTATION COURSE

Classroom Activity 3.1

FACTS ON AGING: A SHORT QUIZ

Directions: Circle "T" for True or "F" for false.

- T   F   1. The majority of old people (past 65) are senile (i.e., defective memory, disoriented and/or demented).
- T   F   2. All five senses tend to decline in old age.
- T   F   3. Most old people have no interest in or capacity for sexual relations.
- T   F   4. Lung capacity tends to decline in old age.
- T   F   5. The majority of old people feel miserable most of the time.
- T   F   6. Physical strength tends to decline in old age.
- T   F   7. At least one-tenth of the aged are living in long-stay institutions (i.e., nursing homes, mental hospitals, homes for aged, etc.).
- T   F   8. Aged drivers have fewer accidents per person than drivers under 65.
- T   F   9. Most older workers cannot work as effectively as younger workers.
- T   F   10. About 80% of the aged are healthy enough to carry out their normal activities.
- T   F   11. Most old people are set in their ways and unable to change.
- T   F   12. Old people usually take longer to learn something new.
- T   F   13. It is almost impossible for most old people to learn new things.
- T   F   14. The reaction time of most old people tends to be slower than the reaction time of younger people.
- T   F   15. In general, most old people are pretty much alike.
- T   F   16. The majority of old people are seldom bored.
- T   F   17. The majority of old people are socially isolated and lonely.
- T   F   18. Older workers have fewer accidents than younger workers.
- T   F   19. Over 15% of the U.S. population are now 65 or over.

- T F 20. Most medical practitioners tend to give low priority to the aged.
- T F 21. The majority of older people have incomes below the poverty level (as defined by the Federal Government).
- T F 22. The majority of old people are working or would like to have some kind of work to do (including housework and volunteer work).
- T F 23. Older people tend to become more religious as they age.
- T F 24. The majority of old people are seldom irritated or angry.
- T F 25. The health and socioeconomic status of older people (compared to younger people) in the year 2000 will probably be the same as now.

This quiz was originally printed in August 1977 issue of The Gerontologist.

ACTIVITY COORDINATOR ORIENTATION COURSE

Classroom Activity 3.2

WHAT IT FEELS LIKE TO HAVE A PHYSICAL DISABILITY

Objective: Identify some of the feelings of persons with physical disabilities.

Equipment: Gloves, scarf, wheel chair, universal cuffs, food to eat, pencil, paper

Directions for activity: Each class members is assigned a physical disability and they will be required to eat, write, go to the bathroom, dial a phone, do oral hygiene with the disability.

Arthritic Resident	Place gloves on and have scarf hold arms to the sides.
Hemiplegia	Tie one arm (dominant) to the side. Should not be able to use the arm
Limited hand	Apply universal cuff
Paraplegia	Make student sit in wheel chair, do not let them use their legs
Ambulatory Limited	Make the student use a walker or can to get around.

Discussion questions following activity:

1. How did it feel to have limited use of part of the body?
2. What were the problems you encountered?
3. How did you feel about yourself when you were having difficulties?
4. How will this activity change your approach to residents with physical disabilities.

ACTIVITY COORDINATOR ORIENTATION COURSE

Classroom Activity 3.3

Objective: Identify the limitations of the resident with a hearing deficit.

Equipment Needs: Tape recorder with hearing test tape. Paper for each student to write on; have the paper divided into three sections (A-B-C).

Student Directions: Place students six to eight feet from the tape recorder. Have them use divided paper. Ask them to write the words in each column. When they have completed the activity, have them compare words. You may need to give them the words in the third column--fill, catch, thumb, heap, wise, wedge, fist, shows, bed, and juice.

Follow the activity with a discussion on how they felt when they could no longer hear the words.

Tape can be obtained from Program in Health Occupations Education, The University of Iowa, N487 Lindquist Center, Iowa City, IA 52242.

ACTIVITY COORDINATOR ORIENTATION COURSE

Classroom Activity 3.4

ATTITUDE TOWARD MENTAL RETARDATION

Please read all of the following statements, and after each statement circle:

- (A) if you agree with it completely
- (B) if you agree with it, but with some reservations
- (C) if you disagree with it, but only slightly
- (D) if you disagree with the statement strongly

- |  |         |
|--|---------|
| 1. Most mentally retarded people need to live in institutions  | A B C D |
| 2. Mentally retarded people usually die while they are still young   | A B C D |
| 3. The retarded person can understand normal adult speech  | A B C D |
| 4. Retarded residents can enjoy serving on committees or the resident council  | A B C D |
| 5. Mental retardation makes a person incapable of learning   | A B C D |
| 6. Socialization between the sexes should be discouraged   | A B C D |
| 7. The mentally regarded person should be expected to behave appropriately in a social situation, during trips into the community, etc.  | A B C D |
| 8. Mentally retarded people are usually evaluated during early years and ranked by IQ level, age development level, etc. This tells you what level the person can accomplish during the rest of his life | A B C D |
| 9. The mentally retarded person can learn "normal" things in the usual learning steps--only slower   | A B C D |
| 10. The mentally retarded adult should be treated as an adult and expected to function as an adult and not a child   | A B C D |
| 11. The mentally retarded person can develop emotional and mental health problems  | A B C D |
| 12. Mentally retarded persons are usually fat because of a glandular problem connected with their retardation  | A B C D |
| 13. Marriage is appropriate for some mentally retarded people  | A B C D |
| 14. Mentally retarded people have criminal tendencies  | A B C D |

15. An appropriate goal for some mentally retarded people is independent living A B C D
16. Most mentally retarded persons do not look physically different than the "norm" A B C D
17. The mentally retarded person continues to learn and develop over the years A B C D
18. Mentally retarded people are always cheerful and affectionate A B C D
19. Mentally retarded people have normal sexual drives and can control them A B C D
20. If you expect a mentally retarded person to succeed, he'll probably learn faster and better A B C D

ACTIVITY COORDINATOR ORIENTATION COURSE

Classroom Activity 3.6

CHECK LIST FOR WHEEL CHAIR TRANSFER

Objective: Safely assist in transferring a resident from a wheel chair

- 1. Wash hands.
- 2. Get the assistance you need.
- 3. Tell the resident what you are going to do.
- 4. Place the wheel chair with the back of the chair at an angle, leaving room for the resident to move with their stronger side toward the chair, sofa, wheel chair to which they are being moved.
- 5. Lock the wheels of the wheel chair.
- 6. Fold the footrests of the wheel chair up so they are out of the way.
- 7. Apply transfer belt.
- 8. Before moving the resident, the two-three who are doing it will decide who is doing what and ask the resident how they will help.
- 9. Raise the resident to a standing position by both of you locking your arms with the resident, at the count of three both lift.
- 10. Using belt, steady the resident in the standing position.
- 11. Assist the resident to turn so their back is to the chair into which they are being moved.
- 12. If resident has had a stroke or injury to one side, move resident toward stronger side.
- 13. Using belt, slowly lower the resident into the new seat.
- 14. Make the resident comfortable. Remove transfer belt.
- 15. Apply safety devices to protect the resident if necessary.
- 16. Wash hands.

## ACTIVITY COORDINATOR ORIENTATION COURSE

### Homework Activity 4.1

Objective: Investigate the implementation of various types of activities that are provided in long term care facilities.

Each student will be assigned to give a report on one of the following activities. Select one that will soon be offered or has recently been offered in the facility in which you are working.

Field trip	Discussion Group
Music Activity	Reminiscing Group
Exercise Program	Party
Teaching a new craft	Resident Committee Meeting
One-to-One Activity	

Suggested format for the report:

1. Name of the activity.
2. Resident for whom the activity was designed.
3. The purpose of the activity. What advantages were the residents to receive from participating in the activity.
4. Describe the step by step procedure that was used in planning the activity. Include resources needed, selection of time, etc.
5. What were the problems encountered when organizing, planning the activity?
6. What was the reaction of the residents, staff, family during the activity?
7. Was the activity a success? Why or why not?
8. What changes will be made the next time the activity is offered?

ACTIVITY COORDINATOR ORIENTATION COURSE

Homework Activity 4.2

Objective: Investigate a variety of craft projects and collect directions to be used when developing crafts in the facility.

Instructions: Each student is to bring a completed craft project and a set of directions for doing the craft project so every class member will have directions. The craft projects are to be displayed and students are to review them during the break time, before or after class.

The directions should include modifications that should be made for one special handicap.

ACTIVITY COORDINATOR ORIENTATION COURSE

Classroom Activity 4.3

Objective: The learners will develop exercises for residents with limitations and report the results to the rest of the class.

Process: Divide the students into three small groups and assign them one of the following types of residents. Ask them to devise an exercise program for each group and be prepared to describe the program for the rest of the class. Have them elect a reporter to report and demonstrate the exercises for the group.

Types of Residents:

- 1) A physically able resident
- 2) A resident in a wheel chair
- 3) A confused resident

Notes from Discussion:
